admodum rarus, testimonium perhibent viri
Celebres D. Mericus Casaubonus in his
Baum-
-garten. Treatise of use & custome p. 34. edit Londin.
1638. his words are these. Martinus a
Baumgarten no obscure man & of good cre-
-dit every way. his book is not very common
to be had, not perchance very commonly
known. & Iohannes Lock in his most

ingenious Essay about humane understanding. book 1. c. 3. ~~in these words~~ where he quotes *the* voyage of Baumgarten as a book not every day to be seen.

Columba Tradunt, si quando necessitas ingruerit, columnas adid edoctas, ab Alexandria Cayrum usque literas sibi colligatas ferre. Baumgarten

l. 1. c. 14. See the Iesuite Auril 's travel's book. 1. p. 16 English. [damage] ilus Ejus fontes locaque, ex quibus oriatur, nullus ad nostrum tempus scriptor, neque vidisse se dicit, neque audijisse ab alijs. ide. ib. c. 15.

Pietas

fidelium Idem c. 18. ait in urbe Cayro esse plures Saracenum, qui utres aquâ plenos per plateas undique circumferunt: ac volentibus libere, sine omni personam

3

discrimine, invasis argenteis sine morâ pocula minstrant id Eliemosyne loco ducentes, diliores vel adhuc incolumes, vel morituri testamentis ordinant. Sed & singulis noctibus faculas, lampadesue ardentes terribus appendi: turres ac ruinas templorum instaurari: ter singulis diebus more suo Deum laudare: aquam, ut praefatus sum, in hydrias convectare: platearum solum bis per diem propter aestum pulveremque surgentem conspergere. feruntque id quo d mihi non ab-simile vero visum est, ultra octo millia hominum esse, qui solâ aquae vecturâ victum quaeritantes.

Currebat nobiscum Arabis cujusdam gravis canicula, quae illic in fausto soluta partu, dum Canis nos abire cerneret, solaque ibi cum faetu rema vide p. 15 -nere horreret: diu multumque quasi delibet 16. -rabunda, sublato miserabili ululatu, malint nos insequendo seipsam salvare, quam illic remanendo se & sobolem periclitari. idem l. 1. c.22

page 4 || page 5

Est in monte Horeb spelunca quâ prophani Saraceni utuntur ad generandos, ut ipsi putant, Prophetas: Proles enim inibi concepta, sancta & spiritu plena Prophetico astimatur. id. l. 1. c. 23.

De Mamalucis vide Baumgarten l. 1. c. ult.

Christianorum (inquit) sunt Transfugae: Natos suos baptizant, non ob Religionis devotionem, sed ut ipsis mortuis bona patria haereditent.

Mamalucis

lucis

Nullus nempe non baptizatus, vel pasus sa-

-racenus vel Iudaeus, potest fieri Mamalucus;
sed prius baptizatur: post hoc fidem ab-
-negat & circumciditur: dehinc ei sub plan-
-tâ pedis crux inuritur in religionis nostrae
contemptum. Horum pars major ex Russiâ ,
Albaniâ , serviâ , Italiâ , Hispania , rarissi-
-mi tunc ex nostra Germaniâ .

Pullorum

in AEgypto

veneratio

Ex ovis

Idem l. 2. c. 1. In Alcanicâ vidimus fornum
quendam undique fimo limoque obseptum, in quo so-
-lebant reponi multi generis ova, gallinarum, co-
-lubarum & caelerorum animalium, quae non per
incubationem matrum, sed per ignis finique foturam

5

in pullos vivos secundum genus suum brevis tem-
-pore exeunt, ac deinde submanu hominis
vel as pascua vel ad forum ducuntur, sequentis
eum ut reliqui pulli naturaliter geniti suas matres.

quae res tametsi fictitia videri aliquibus
possit, verissima tamen est, nam in ejusmodi
furnis aliquando tria aut quatuor millia
diversi generis reponuntur ova, & omnia
per artem illam in pullos fiunt. hoc verum
esse vident omnes, qui copiam innumerabilem
pullorum per AEgyptum ubique abundare
cernent. vide etiam Therenot. part. 1. c. XI.

Idem l. 2. c. 9. permansimus in templo Sancti

12

awaken his Cat. likewise chapt. 38. he
 speaks many things of *the* Charity of *the*
 Turks towards Cats & dogs. in the
 3^d part of his travels ~~trav~~ chap. 5. he
 says *that* in Amedabad (a City I in *the* Indies)
 there is an hospitall for birds. The
 Gentiles lodge therein all *the* sick birds
 they find, & feed *them* as long as they
 live if they be indispos'd. four footed
 beasts have theirs also: I saw in it
 severall oxen, Camels, horses, & other
 wounded beasts, who were look'd after,
 & well fed, & *which* these Idolaters buy
 from Christians & Moors, *that* they may

deliver them (as they say) from the
cruelty of Infidels; & there they con-
-tinue if incurable, but if they recover
they sell *them* to Gentiles & none else.

21

sacrificijs evocata, ab timore incendiorum ædi-
-ficia videantur liberari. Martis vero
divinitas, cum sit extra mœnia dedicata,
non erit inter cives armigera dissensio,
sed a hostibus ea defensa, & belli periculo
conservabit. item Cereri extra extra urbem loco
quo non semper homine, nisi per sacrifi-
-cium, necesse habeant adire: cum reli-
-gione caste sanctisque moribus is locus
debet tueri.
Vitruvius liber 4. capitulum 5. Ædes sacræ Deorum
immortalium, ad regiones quas spectare
debent, sic erunt constituendæ, uti si nulla
ratio impedierit, liberaque fuerit potestas
ædis, signum *quod* erit in cella collocatum, spec-
-tet ad vespertinam cœli regionem. Ut
qui adierint ad aram immolantes, aut
sacrificia facientes, spectent ad partem

cœli orientis, & simulachrum, quod erit in æde.

page 22 || page 23

22.

& ita vota suscipientes contueantur ædem & orientem cœli ipsaque simuachra ex-orientia contueri supplicantes & sacrificantes: *quod* aras omnes Deorum necesse esse videatur ad orientem spectare. Sin autem natura loci interpellaverit, tunc convertendæ sunt earum æduim constitutiones. uti quamplurima pars mœnium e' templis Deorum conspiciatur. Item si secundum flumina ades sacræ fient, ita uti Ægypto circa nilum, ad fluminis ripas videntur spectare debere. similiter si circum vias publicas erunt ædificia Deorum ita constituentur, uti prætereuntes possint respicere, & in conspectu salutationes facere. & cap. 8. are spectent ad Orientem, & semper inferiores sint collocatæ, quam simulachra, quæ fuerint in æde uti aspicientes divinitatem qui supplicant

23

& sacrificant, disparibus altitudinibus ad sui cuiusque Dei decorem componantur. altitudines earum sic sunt explicandæ, ut Iovi, omnibesque cælestibus, quam excelsissimæ constituentur; Vestæ, Terræ, Marique humiles &c.

Beads

*the use of
them in praying*

The Turks use beads *when* they pray.

Mr Robert Withers in his accurate description of *the* Grand Signior's Seraglio, published by *the* learned Mr John Greaves p.

Dela Lou bore
dans l' hist. de
Siam, to 1. p. 349.

parlant du Talapains. l'ignore æ qui
veulent dire
des chapelets
descent huit
grains sur
lesquels ils
recitent de

certaine pa=

-roles Balies.

138. says *that* in *the* same chamber where *the* Grand Seignior lyes, there are alwaies two old women, *that* wait with burning torches in their hands, *which* they may not put out till *the* G. Seignior is risen out of his bed: now *the* use of these lights is for his Majesty to say over his beads, & for to pray by in case his devotion be stirr'd up thereto at midnight, or at Temcheetnamaz; *which* is about two hours before day. So p. 170, he says

page 24 || page 25

24

beads in

prayers

that it is *the* opinion of *the* Turks *that* certain Angels in *the* likenesse of *the* angel Gabriel do unto *the* end of *the* world pray unto God & praise him on their beads. & p. 187 he says *the* Turks *which* seem to be professours of Religion & devotion, & *would* be accounted x Sofees, do commonly x puritans

read, as they walk along *the* streets, & have their beads longer then other men, carrying *them* in their hands into *the* moscheas, & are ever busie *withthem* as they walk up & down *the* streets, but they passe *them* over quickly, for whereas *the* Papists say their Pater noster, or an Ave Maria, they say only two words, as for example 1. Subhawn Allah,

God is pure

or (2) Isthigtir

God defend

Allah, & sometimes 3) Alloho ekber. &

God is great

p. 197 he says *the* Moyerings & Dervieshes pray with their beads, for *the* glory of *the* Emperours deceas'd. & p. 183 he says *the* Turks *when* they pray turn their faces alwaies towards *the* South East for so Mecca lyes from Constantinople ,

25

& they pray in an unknown tongue as well as *the* Papists.

Monsieur de la Loubere who was Envoy extraordinary from *the* King of France to *the* King of Siam in 1687 & 1688 publish'd his book of *the* Kingdom of Siam in 2

tomes 8^o in *the* year 1691. *the* first tome contains his own observations concerning Siam , *the* 2^d contains ~~some~~ a collection of Monsieur De la Loubere curious pieces concerning Siam & other parts of *the* Indies partly translated out of *the* Siamese language, & partly observations made by Europeans, amongst which are some observations of Monsieur Cassini's Directeur de l'observatoire de Paris on *the* Astronomie of *the* Siamese's & *the* Chronologie of *the* Chineses. He says in his first chapter or preface p. 4 being *the* end of it, *that* he was but ... 3 months in Siam , & p. 2 he says *that* he set sayle from Brest *the* first

page 26 || page 27

26

of March 1687 & cast anchour in *the* road of Siam *the* 27th of September in *the* same year; & *that* he parted from Siam for France on *the* 3^d of January 1688 & landed at Brest on *the* 27th of Iuly following. he writes with an air of Sincerity & seems to have made very judicious observations in so short a time.

Nothing is equal to *the* fondnesse which apes have for their young ones, unless it be *the*

of the Love

of children

love ~~which~~*the* Siameses have for ~~thei~~ children, whether they be their own or other people's.

The King of Siam himselfe is often surrounded *withthem* , & takes a great pleasure in lifting *them* & playing *withthem* till they are 7 or 8 years old. Loubere hist. Siam . p. 27. tom. 1.

Idem to. 1. p. 108. Parmi les femmes du Roy de la Chine , il n'y en a qu' une, qui ait les honneurs, & le nom de Reine: les autres sont fort au dessous de celà, quoy qu' elles soient toutes legitimes par les Loix du Pais. les Engans de ces

27

Dames n' honore ut point leur meres naturelles, comme les Chinois sont obliger d'honorer leur meres, mais ils rendent ce respect, & ils donnent le nom de mere à la Reine; comme si les secondes femmes n' enfantient que

In an advertisement at the end of *the*
Rotterdam Gazette of Thursday 6 November
N.S. 1692 there is *the* observable concer-
-ning *the* Spaw waters the words are these.
On donne advis au public que les eaux de
Spaa qui sont si renommées, sont devenues
encore plus efficaces par le tremblement
de terre. Entre toutes les fontaines qui
y sont celle qui est au milieu du bourg
& de la quelle on puise les bouteilles qui
s'envoient tous les ans, partout Europe
est merveilleusement changee. Sa sowerce est
augmentee du double & l'eau qui estoit
rarement claire est devenu d'une clarte

sans pareille, & d'une force si grande quw
les bouteilles se cassent quand on les bouche
des qu'elles sont emplies, comme l'on avoit
accoutumee de faire avant le tremblement
de terre. Les autres fontaines en sont aussi

page 32 || page 33

32

devenues plus belles & meilleures, ce qui fait
esperer aux habitans de lieu, que la paix
les de dom magera de la guerre qui empêche
tant de gens d' y aller prendre un remede
aussi bon & aussi agreable qui est celuy i de
ces eaux

Prester F. Auril *the* Iesuit in *the* 3^d book of his Travel's is
Iohn. of opinion *thatthe* Delae Lama of *the* Tartars is
the true Prester Iohn. This Delae Lama is acknow-
-ledged by *the* Tartars as *the* head of their Reli-
-gion, & held in great veneration by them. the
Iesuites thinks *the* Tartars of *the* inhabitants of
those places now in possession of *the* Tartars
might formerly have been Christians whose
Prince was call'd Prester Iohn into whose
place, Christianity failing, *the* Delae Lama
succeeded.

33

F. Auril is of opinion in his Travels b.2.
that *the* Caspian sea discharges itsel^e
into *the* Persian gulph . 1, because *that* in *the*
gulph of *the* Persian Sea to *the* South over
against the province of Keilan , there are
two dangerous whirlpools or deep Abysses,
whichthe Persian vessels *that* set sayl from *that* coast
endeavour to avoid as much as they can. Caspian
And *the* noise of *the* water, *which* throws itsel^e into Sea.
that gulph with a surprising rapidnesse maybe
heard in calm weather, so far off, *that* it is enough
to terrify all those who are ignorant of *the*
real cause. *the* 2^d conjecture, *which* to me seems
to be of more force *thenthe* former is grounded
on every years experience, by *which* they who
inhabit all along *the* Persian gulph , observe a
vast quantity of willow leaves at *the* end of every Autumn.
now in regard *this* sort of tree is altogether unknown
in *the* South part of Persia , *which* borders on *that* sea;
& for *that*, quite *the* contrary, *the* northern part *which* is
bounded by *the* Sea of Kilan , has all *the* Sea coasts shaded with the

trees; wee may assure our selves with probability enough
that these leaves are convey'd through subterraneous caverns

page 34 || page 35

34

The Jesuite Auril in *the* 3^d book of his travels p. 176.

relates *whatthe* vayvod of Smolensko ^{^ a moscovite} told him concerning *the*
peopling of America, in these words. There is, said *the*
vayvod, beyond *the* Obi, a great river called Kawoina, into *which*
another river emptys itselfe by *the* name of Lena. at *the*
mouth of *the* river *that* discharges itselfe into *the* frozen sea,
stands a spacious island very well peopl'd, & *which* is no
lesse considerable for hunting *the* Behemot, an amphibio-
-bious animal, whose teeth are in great esteem. The

Concerning
the peopling
of America

Inhabitants goe frequently upon *the* side of *the* fro-
-zen sea to hunt *this* monster. & because it requires
great labour & assiduity, they carry their familys
usually along *withthem*. Now it many times happens
that being surprised by a thaw, they are carried away
I know not whether upon huge pieces of ice *that* break
of one from another. for my part, added he I am
perswaded *that* several of those hunters have been
carried upon these floating pieces of ice to *the*
most northern parts of America , *which* is not far
off from *that* part of Asia *which* juts out into *the* sea
of Tartary . And *that which* confirms me in *this* opini-
-on is this, *thatthe* Americans who inhabit that countrey

35

which advances farthest toward *that* sea have *the* same
physiognomy as those unfortunate Islanders, *whom*
the over eager thirst after gain exposes in *that* man-
-ner to be transported into a foreign Country.
Wee might adde to *whatthe* Vayvode told us,
that there are also in *that* part of america several
of those creatures *that* are so common in Muscovy ,
more especially beavers, *which* might have been America
transported thither after *the* same manner.
And *this* conjecture seem'd to me to be so much *the*
better grounded, in *that* it is frequently to be seen in
Poland , *that* such great pieces of Ice keep whole &
entire from Warsaw till they come to fall a
great way into *the* Baltick Sea . &
The Tamarisk tree was first brought into England
by Edmond Grindall A. B. of Canterbury who died Tamarisk

Receipts

To Collar a Calf's head

Water the Calfe's head a day & a night,
being clean pick'd, bare it, then water it
six hours more wringing the blood clean
out; season it with cloves, mace, nutmegs
& pepper, of each a little quantity beaten,
take of sweet herbs, sage & spinage, each
a handfull shred very small & mixe them
with spice & a little salt: if the heads are
large halfe a head serves ~~with a~~ for a collar.
Washe *the* inner side of *the* head with *the* yolkes
of egges, then strew on *the* seasoning of spices
& herbs, then lay on long slices of bacon cut
thin *the* length of *the* collar with a lemmon sli-
-ced thin after tis par'd & *the* kernels pick'd

page 2 || page 3

2

out. Roll all these up in *your* Collar then tye it as

close as you can in a linnen cloath bound
thick with a broad close tape then boyle *them*
in a pickle of white wine & wine vinegar
with *the* top of a bay, lemmon pill & whole spice
with an onion pick'd full of holes, & keep them
afterwards in *the* same pickle. To 3 heads half
an ounce of each spice beaten is *the* usuall
quantity & for *the* liquour a quart of wine &
a quart of Vinegar with as much water & salt
as will sever them, boyle *them* till they are ten-
-der on a soft fire, it will keep two or 3
months.

To make Scotch Collops.

Cut thin slices out of a leg of Veale, as many
as you think will serve for a dish & hack *them*
very well with *the* back of a knife & lard some

3
with bacon & fry them in butter, then take
them out of *the* frying pan & keep *them* warm
& clean *the* pan & put into it 1/2 a pint of
oysters with *the* liquour & some strong brothe & a
shallot or two & a little white wine, 2 or 3 an-
-chovies minced, a little grated Nutmeg &
the yolkes of 4 eggs well beaten & a piece
of butter, & when it boyles put in *your* Collops &
tosse it well together till it be thicke then put
it into a dish with Sippits on *the* bottom, & lay on it
the same ingredients as you did on *the* hash.

To make Dutch beef.

Take a but piece of beef raw & rub it well
with brown Sugar all over, *then* put it into acon-
-venient pan, let it lye an hour & turn it 2 or
3 times that while, then season it well with salt

page 4 || page 5

4
& salt petre for ten days or a fortnight, keep
turning it in *the* same pan every day, then bind
it very streight in a cloath & put it into a
cheese presse for a night & a day & let it be
close press'd, then take it & drye it in *the* chim-
-ney & when 'tis dry enough & you have a mind to
boyle it, you must put it into a cloath.

Ramsey's Balsam.

Take of *the* best Spirit of Canary 1 pint, put it into a glasse bottle & put into it of Sarsaparilla 3 ounces, china roots 2 ounces both in grosse powder, stop *the* bottle well & shake it together till *the* Spirit is tinchir'd yellower than gold, then drean off *the* Spirit into another bottle & to a 2 pound of Spirit (by adding to it) put 10 ounces of gum Guaiacum in fine powder, stop *the*

5

bottle & shake it together for 2 or 3 days till 'tis all dissolv'd but *the* dreggs, when 'tis settled clear it off again into a fresh bottle & to 2 pounds (or pints) put an ounce of natural Balsam of Peru & mixe *them* well together by agitation *which* will be in a day if well follow'd *then* adde to it halfe an ounce of *the* best Balsam of Gilead, corke *the* bottle & tye it close & work it all well together for 2 or 3 days ° till tis all well mix'd & incorporated. When you think 'tis enough you may put it in little bottles close cork'd & keep it for use, 'twill keep an 100 years & is good for all in ward bleedings & bruises, wounds in *the* body or any member for consumptions & *the* morbus Galliens & all Hæ-morrhæias & fluxes of blood in men or women.

page 6 || page 7

6

To make *the* Green oyntment.

Take a quarter of a pound of young bay a quarter of a pound of *the* youngest rue *that* you can get & of wormwood & Sage & Camomile *the* like quantity. *your* Sage must be green, & *withthis* take a pound of fresh mutton suet, shred all these together very small & put them into a wooden bowle & pound *them* till they come to a salve, *then* put into it 1 pint of good Sallad oyle pound all *this* together again till *the* oyle be well mix'd *withthe* herbs, then put it into pots & put it under ground ten or 12 days, then take it up again & boyle it 5 or 6 hours, then take up a little

& let it stand till it be cold, if it begins to be hard & to boyle black, put it up. this salve is

7

good to take away any swelling, or to heale any sore, if *that* the Sore will break it will break it, if not it will heal it. -

How to pot a Hare

Take *the* Hare & parboyle it & cut it clean from *the* bones, *then* mince it very fine, *then you* must take Westphalia Bacon & boyle it very well & take out all *the* Sinews & mince it with *the* hare then take all sorts of potherbs & cut *them* fine, take also mace, cloves, nutmeg, cinnamon & a little ginger & pound it alltogether put pepper & salt according to *your* liking. *when* this is all mix'd well together, take *the* yolkes of 3 eggs & a little gravy, mixe with them, then take lard or very fat bacon minc'd very fine & mix'd well with it, then bake it & *when* tis cold put in

page 8 || page 9

8

some clarified butter and inch thicke.

12

coing de l'oeil lorsqu'on s'en va coucher, cela fait une grande douleur mais qui passe incontinent; elle st fort bonne pour tous les maux des yeux, entr'autres l'ongle & la laine comme aussi les blessures, le dragon &c.

To dresse laver

Take as much of *the* laver as *you* designe to use & chop it, then put it into a dish *you* design to eat it in over a chafing dish of coals, & stir a little gravy into it, when tis almost ready, put in some butter mix'd very well, if it is not sower enough adde vinegar, then put it on toasts sippits & send it in.

To make Tincture of Strawberry

Take *the* best spirit of wine *you* can get, put it into a great glasse *with* a wide mouth, put good

13

Strawberries into it, change them 3 or 4 times a day till *the* wine looks as red as *the* strawberries & alwaies as *the* strawberries loose their colour they must be chang'd. Strain forth *the* wine *when you* change *the* Strawberries & after it is very well infus'd put in good store of white sugar Candied & let it stand. use it for a cordiall for *the* heart & stomach, it may be given in Consumptions & feavers.

The King's orange biscuit

Take 3 oranges & pare them very thin & take *the* pill & beat it in a mortar till it becomes paste, then take as much double refin'd Sugar pounded & sears'd & strew it into *the* orange pill, beating it so long tis a per-

14

fect paste, mix with it a little gum dragon steeped in water & then beat it all together till it is a paste as will roll, then roll it thin & cut it into cakes with a glasse, *what bignesse you please* & they will drye as they lye; you may adde Ambergreece if *you* will. -

To make a Lemmon cream.

Boyle *the* cream & *when* halfe cold turn it curd with iuice of Lemmon then whey it with a canvas strainer, beat some blanch'd almonds in a mortar with Rose water, then put a lay of curd in *the* dish, then a lay of Sugar, then a lay of Almonds, then a lay of curd till *the* dish is full.

To make *the* Red powder.

Infuse in 3 pints of white wine these follow-

15

ing herbs for 24 hours close stopp'd & heated in an oven or over coals viz. Pimpernell Scabius, Tormetill, dragon, betony & Scordium, of each 4 or 5 ounces, next morning strain it, then have in time a pound of fine Bol-Armoniack & wet it with Some of *the* wine to *the* thicknesse of whitepot, then set it in *the* Sun & stir it often & as it thickens so put in more of *the* wine & *when* you put in in *the* last of *the* wine adde these things following. Mithridate 1 ounce. Diascordium 1 ounce & halfe. liquorice halfe an ounce. oriental Bezoar halfe a quarter of an ounce. Saffron, halfe a quarter of an ounce. Tarmerick, one ounce. powder those things *which* are to be powder'd, mixe it as before, keeping it very well stirred & in *the* hot sun till it be

16

drye enough to make into little cakes or balls, then let it stand a little longer in *the* Sun & *when* you think it is dry enough put it into a box near *the* fire.

To Stew a carpe

Bleed *the* in *the* head & save *the* blood, take halfe water & halfe claret with a little mace, ginger & pepper, two whole onions, a little lemon pill & thyme, 2 or 3 anchovies, let *the* carp stew halfe an hour, take some butter & put into a frying pan, *when* it is very brown shake in some flower, keep Shaking it till it is thick & throw it over *the* carp, if you find *the* sawce too pale *you* may put in more claret or red wine & a little more butter & some horse radish /

17

To pickle Wallnuts Sir William
Portman's way

Take green nuts before they be hard, put them in a kettle of water & Salt & boyle them & *when* they colour *the* water shift them & so doe 3 times Scumming *them* clean & *when* they are a little tender *you* take them off, wipe *them* clean & *when* they are cold put *them* into a pot, first cover *the* bottom of *the* pot with dill, then put a row of nuts, over them strew Salt & So doe till *the* pot is 3 quarters full, then put in some mace & cloves, whole ginger, pepper, 6 cloves of garlicke & fill up *the* pot with *the* best white wine vinegar, put a good quantity of *the* best mustard in *the* pickle & dill ore this to make *them* eat like mangoes, stop *the* pot close & let it stand 3 or 4 months.

page 18 || page 19

18

To make White Mead

To 6 gallons of water take 14 pound of honey, boyle it 3 quarters of an hour, when it boyles scum it very clean & put in sweet bryar, balm, sweet marjoram, 10 sprigs of each, cinnamon 1 ounce, mace 1 ounce, 20 cloves & a large race of ginger. Let those herbs & spices boyle in *the* liquour *the* time aforesaid. When tis almost cold take 6 ounce of *the* Syrop of *the* juice of Citrons & a Spoonfull of ale yeast, *which* being beaten together put into *the* liquour, & *when* *the* liquour is cold take as much brown bread in toasts as

will cover *the* tub you worke it in, *the* lower sides
of *the* tosts being spread very thin with yeast, so let
it worke 2 days, you may slice a lemmon into

19

it in *the* working, in *that* time it will gather a small
head, *then* strain it out & adde a quart of *the* best
Rhenish wine, *then* put it into a cask & *when* it has
near done purging stop it close. At a month or
6 weeks end *you* may bottle it, cork it well &
tye down *the* corkes, let *your* honey be very white
& *when* you put *the* honey & water on *the* fire, throw
into it *the* whites of 2 eggs, *which* will make it
much *the* clearer./

To butter oranges

Take *the* juice & inside of 12 oranges free
from seeds or rind, *the* whites & yolkes of 7
eggs well beaten & strain'd, set *the* oranges on *the*
fire, let them heat scalding hot, stirring them
continually, put in *the* eggs still stirring it, ~~till it~~
be almost cold, then pour it in *the* dish & let it be

page 20 || page 21

20

~~cold~~ & as it heats put in *your* Sugar to *your* taste, finely
sifted, sweet butter about *the* bignesse of a nutmeg,
when it grows pretty thick, take it off *the* fire stir-
-ring it till it be allmost cold, then pour it in
the dish & let it be cold before tis eaten./

To pickle mushrooms

Gather mushrooms in dry weather *whenthe* dew
is gone from *the* ground & as early in *the* year as
you can, get *them* *when* they are small & red in *the* under
side, pull off *the* rinds clear, quarter *themthat* are big
& throw *them* as fast as *you* doe them, into clear
water; then set a pot of water over *the* fire
as much as *you* thinke will cover them, throw
in a handfull of more of bay Salt, & a good
head of garlick & *when* it boyles put in *the* mush-
-rooms, keep *your* pot very clean scumm'd *when* they

21

begin to sink to *the* bottom they are ready
then drain *them* very dry then take a galley pot

with a wide mouth & dissolve in *the* best white wine vinegar, a good handfull of bay salt, put in a pretty quantity of whole white pepper, some mace & cloves with a little beaten pepper, put in *the* mushrooms & ~~then~~*the* Spice & *then* mushrooms, so do till you have put in all *then* fill it up *with*~~the~~ same vinegar & stop it close & kepp it for *your* use.

To frost any fruit.

Take double refin'd Sugar & beat it & searse it & put to it as much water as will well wet it & set it on *the* fire, & let it boyle till it is a Candy hight, till it looks white & froths & is almost Sugar again; then dip in *your* fruit

page 22 || page 23

22

as fast as you can & lay them upon plates, *when* the last are done *the* first will be ready to dip again, then dip again & lay *them* upon plates & keep *them* for *your* use. You may doe any raw fruit so & they will keep a month & drye fruit all *the* year, currants, goosberries, cherries, or *what* you like

To make rice puddings

First boyle *your* rice in water, then take 6 yolkes of eggs & one white & mingle *them* well *with*~~the~~ rice with a good deale of marrow, beef suet & a little cream, season it *with* Sugar cinnamon, nutmegs, cloves & a little Rose water, then fill *them* in *the* lesse skin, but not too full & clap ^{*them*} *with* *your* hands ~~that~~*the* wind may goe forth & so boyle *them*, *when* they boyle prick every one of *them*

23

with a pin that *the* wind may goe out.

A Receipt for Cowslip wine

Take 6 gallons of water 12 pound of good powder'd Sugar, 2 or 4 whites of eggs well beaten & put in *the* water cold then let it boyle 3 quarters of an hour & take off *the* scum very clean, then take it off *the* fire, *when* it is cold

put in 2 good spoonfulls of ale yeast & 6 ounces of Syrop of Citron well beaten together & as many clipt cowslips as will give it a taste & colour, *the* next day put in 3 lemon pills, & *the* 4th day put 2 quarts of Rhenish wine & strain it out & put it in a caske & stop it close for a fortnight, then bottle it, putting a piece of loaf sugar into every bottle & stop it down fast.

page 24 || page 25

24

How to know the true Persian Bezoar Stone.

Take Quicklime & mixe it in powder with a little of *this* stone & with water make them up into a past, *when* that is drye grind it, if it then remaineth while it is esteem'd false, but if it turns yellow tis good. & So Ranwolff in his Travels P.1.c.8.p.86.

See also Captain Beckmans voyage to Borneo. p. 151

Infuse about 6 penny worth of oyl of Tartat per deliquium into a Coffee dish halfe full of water, dip *your* flowers into it & take *them* out presently. The flowers will continue of a green colour for about a week, but will afterwards turn yellow.

25

Infuse six penny worth of Spirit of Vitriol into a Coffee dish & halfe full of water, dip *your* flowers into it & this will make ~~of~~ them of a cherry colour or else you may use *the* following method.

Take a strong lixivium made of fern, let the thinnest part be put in a porringer, *which* heat over *the* fire, & while it is very warme dip *your* flowers.

The juice of black cherries in white wine vinegar will make *them* of a purple colour, but *this* has not succeeded so well as *the* former.

page 26 || page 27

26

To make Liver puddings

Take a hog's Liver, boyle it well, grate it till you have a quart of grated liver, 3 pintes of grated bread, one pint of flower, 5 pintes of new milk warm'd 3 pound of beef sewet cut small, 10 yolkes of eggs, 5 whites, halfe a pound of Sugar, halfe a pint of Rose water, halfe an ounce of mace, a little Salt, mingle all these well together, then fill *the* guts

Another way to make liver puddinges

Boyle the liver very well, *when* it is cold grate it, & sift it through a hair sive, take a pound of *the* finest liver & 2 pound of grated bread ready sifted, *the* yolkes of 4 eggs, 2 whites, 1 pound & an halfe of beef sewet, some small shred, *the* rest about *the* bignesse of dice, one nutmeg grated,

27

halfe a pint of Rose water, 1 pint of good cream, a little sage made into powder, some salt, some sugar to *your* taste; fill not *the* skines more than halfe full & pick off all *the* fat, they must not be above a quarter long. Some like not Rose water in them then onyl lay *the* skines, for halfe an hour before *then* fill them in rose -water, *when* they are boyl'd lay some spriges of rose mary wetted in Rose water under & above *the* puddinges, prick them in *the* boyling, take *them* up to breath a little. -

To make Sheep'es or hog'es puddinges.

Take 6 or 8 penny worth of bread, slice it very thin or grate it, & put of boyling milke to it as much as will soake it, cover it & let it stand till *the* next day, if you slice *the* bread break it very

page 28 || page 29

28

well, put a quart of blood to it (more or lesse as *you* judge meet by *the* rednesse) then season it with marjoram, thyme & penny royal & *the* green of leekes & sweet fennel seed, a few sage leaves & and a good quantity of salt, 3 or 4

nutmegs, a pretty quantity of mace, some cloves
& a little pepper, with 6 eggs whites & all
mingle all these very well together &
put to it as much sewet as *you* thinke con-
-venient, & so fill *the* guts not too full, for
they will swell much, & let *them* boyle softly an
hour without pricking of them or taking *them*
out. you may make *them* with oatmeal instead
of bread.

29

To make a rare Cake *the* Lady Owen 's way.

Take a peck of fine flower by heap, a quart of
cream, 12 yolkes of Eggs well beaten, a pound & a
halfe of fresh butter gently melted & powr'd hot
to *your* flower, a quarter of a pint of Rosewater
with musk or ambergreece dissolv'd in it, a quart
or something better of barme, season it with salt,
2 penny worth of cloves and mace & a little nutmeg
beaten alltogether, 3 pound of Currants pick'd
& wash'd in fair water, 2 pound of raisins of
the Sun, ston'd & shred small, a pound of blanch'd
almonds beaten very small with a little rose water
to keep them from oyling, a pound of Sugar, first
mingle then knead all these things well together
let it lye a full hour in dough by *the* fire to rise, *your*

page 30 || page 31

30

oven being ready, make up *your* cake, let not *your* oven
be too hot, nor shut *the* mouth of *your* oven unlesse
you see great cause, but be stirring *the* cake often,
let it not stand full 2 hours, *you* must have ready
when you draw *your* cake, some sugar & rosewater to
ice it

To make a fine pudding.

Take a pound of Naples biscuit grated, a quart
of cream & *the* yolke of 4 eggs with a spoon full or
2 of Rose water, then to these *the* quantity of a
quarter of a pound of beefsuet shred as small
as may be with a nutmeg grated, mingle these all
together & bake it in a dish, it will ask about
3 quarters of an hour

To ~~stew~~^{fry} Cucumbers

Take ~~xxx~~ large raw Cucumbers, cut them ^ into thin slices & put them into a frying pan with a little butter & fry them till they are a little brown, then put out *the* butter & pour into them some gravey that is season'd with pepper, onion sweet herbs & anchovies & let them ~~stew~~^{fry} till they are ready. you may doe them in a sawce pan as well if you have no lemmon you ? may use vinegar, & salt them to *your* taste.

To butter chickens

Take 3 chickens & halfe boyle them, then cut them in joynts & stew them in white wine, a little mace & salt, then take a pint of sweet thick cream, the juice of a lemmon, a quarter of a pint of white wine & halfe a pound of ~~butter~~ butter, thicken it with a little flower & put it to *the* chicken with some boyl'd parsley; cut white bread thin & lay at *the* bottom of *the* dish & lemmon at top.

page 32 || page 33

To make Almond Cakes.

Take a pound of large ^ ^{sweet} almonds, blanch them in cold water, slice them *the* long way very thin, a pound of double refin'd Sugar beaten & sifted, wet it with the froth of the Whites of eggs & a little orange flower water; then put in *the* almonds & lay them hollow as you can upon wafers of *the* bignesse of a 5 shilling piece, a little citron, orange or lemmon pill cut like *your* almonds. Set them in a very cool oven a little, then take them out & raise them to be hollow, then set them in to harden a little more.

Directions for making black Japan.

1^s day. Rush the wood all over & varnish 6 times with

clear varnish.

2^d day. Rush the insides of boxes or drawers & varnish 6 times with lamb black in the varnish, then the insides are done till you speckle it.

3^d day. Rush & varnish 6 times with lamb black in *the* varnish.

4th day. Rush & varnish 6 times with ivory black in *the* varnish.

5th day. Rush & varnish 6 times with a tincture of Ivory black in *the* varnish.

6th day. Rush & varnish 6 times with a lesse tincture of ivory black in *the* varnish.

7th day. Rush & varnish 6 times with a lesse tincture of ivory black in the varnish.

8th day. Rush & varnish 6 times with as much ivory black as will discolour *the* varnish.

page 34 || page 35

34

When this is done let it stand about a week, then rush the insides & mixe man's flesh with oyl of turpentine & vermilion till it be very fine (with *your* finger) & looks of a dirty red & is thin enough to lay smoothly on, if you perceive any knots in it strain it through a clean piece of linnen, then with a hog's hair brush lay it all over the insides as thin as you can & even, to make it cover the black every where alike; about an hour after you must speckle it with *what* sort you like, either mix'd or all of one colour, put them into a tiffany sieve & shake them thick & even, then let it stand a week free from dust, then *withthe* same varnish you black with, varnish all *the* insides 4 times; let it stand a week more, then rush it slightly & varnish the insides again 8 times. when *the* work is thus done set it by *withthe* boxes open till 'tis fit to polish. You may doe it at a quarter's end, but if it stand 3 quarters or a year 'tis the better.

35

The brushes us'd in varnishing are made of camel's hair, except where you are directed by *the* contrary. Remember before you varnish *the* insides to take off all the speckles *that* are fallen on *the* outsides & if you have dawb'd *the* outsides with the gold size a rag & oyl of turpentine will clean it take care you don't touch *the* insides after they are speckled till they have been varnish'd *thefist* first

4 times -

More Receipts for colouring &

ordering the eternall flowers.

Be sure to gather *your* flowers as soon as they are full blown, before they are over-blown.

Gather *your* flowers with long stalks & then curle *the* leaves backwards, *which* may be done *with* the back of a knife *which* doth not cut. then take an earthen pot a little deeper then *your* flowers with their stalkes are long, strew some fine sand well dried, & whilst it is warm into *the* pot & set *the* flowers therein, & let all *the* tops of *the* flowers be of an even levell, & lightly cover all *the* flowers a

page 36 || page 37

36

little above the tops of them *with* the warm sand, *you* must not presse down *the* Sand, nor cover the flowers too much, least the weight of *the* Sand prejudice them.

Let them stand so cover'd in sand for 3 or 4 dayes then take them out & shake & blow off all *the* sand.

To alter their colours

Take an earthen dish with some clear spring water in it & put therein a little aqua fortis stirring it well with a stick, then take *your* flowers & dip them therein, shakeing them after over *the* cup. If *when* they are dry, they are either of *the* colour of tann'd leather or 'speckld not all of *the* same colour, it is a sign there is too much Aqua fortis & therefore you must put in more spring-water. At *the* first try but a few flowers, that you may find out *the* true mixture, for some flowers require a greater mixture of Aqua fortis than others.

To make them yellow lightly stroak them over with a pencil dipp'd in oyl of Tartar, be carefull not to lay on too much.

When you have no white flowers, but desire to make them so, take an earthen pot deep enough to hold

37

your flowers, kindle therein some of brimstone, so as not to make it blaze but smother, put *your* flowers into *the* pot whilst full of smoak & cover it for 2 or 3 days. When *your* flowers are thus order'd, you must be carefull not to keep *them* moist, but in a dry place free from

dust, & in *the* shade.

Another receipt to colour ~~F~~the Eternal flowers
or Pharmica Austriaea flore duplici majore.

To dye them yellow

Take Aqua fortis & with a feather dipp'd in it stroak
the flowers lightly over.

To dye *them* red

Take halfe Aqua fortis & half clear spring water
use it in *the* like manner.

To dye them green.

Take Roman vitriol *the* greenest & *the* clearest in-
-fuse it in brandy with alittle spring water, *which* use
as before directed.

To whiten them

Gather *the* buds of *the* flowers before they be open, & set

page 38 || page 39

38

the stalkes in water & keep *them* so in a very close place,
where *the* least air can come, let *them* stand there for 4
or 5 days till they are full blown.

By streaking *the* flowers in distinct streakes with Aqua
fortis alone and with it mix'd (as afore directed) you may make
the flowers striped with some or all (if you please) of the afore-
-said colours, or by sprinkling them therewith make them
speckled or variegated.

Choose the largest & most double flowers, those
rais'd from seeds sown in Autumn are preferable to those
rais'd in *the* Spring.

Pills for *the* Spleen by Dr Tyson

The Colick.

2 Ounces of Liquorice & 2 drams of Rheu barb
infused in a pint of water, drinke two spoonfulls of
the liquour night & morning, as often & as long as you
find it necessary./

Liquourice balls for a
Cold.

Take a pound of fresh *English* Liquourice, scrape it
& cut it in bitts & bruise it, put it into a jugg or
tankard, put to it hyssop water, colts foot water,
& red rose water, of each half a pint, in fusing 24
hours close covered, & then strain it through a
thin strainer, then put it into *the* mortar again, &
pound it very well, wetting it *with* the liquour, & so
presse it out *with* a screw very dry. Then set the
juice on a charcoal fire & let it boyle reasonably
fast, till you find it about halfe wasted & begin to
thicken, then take halfe a pound of white sugar

page 40 || page 41

40

candy powder'd & sifted, stir in halfe of it, let it boyle
continually stirring it, & then put in *the* other halfe
of the Sugar, so let it boyle. Let a drop fall on a
plate, & if it comes clean off it is enough, scrape
it from *the* bottom of *the* dish, you may put in a
little musk & amber, stir in 2 or 3 spoonfulls
of fine sugar, let it dry a little longer on the
fire, then take it out & put it in a stone mor-
-tar, & pound it very well *with* a little gum
dragon steep'd in *the* Queen of Hungary water,
& when it is pounded very white, work it up
with some fine Sugar in balls, & dry them in the
stove. they must be kept dry.

Sume totum in fistulum cubitum ilumus.

This was Dr Prujean 's receipt to my Lady Malet ,
who lay'd aside her spectacles upon taking *this*
smoak at 83 years of age, *which* she had been forced
to make use of, for 30 years before./

page 42 || page 43

42

The Receipt to make *the* Yellow cordiall.

Take 4 quarts of Nants brandy, 1 quart
of poppey water, 1 pound & halfe of raisins
stoned, 1 pound of fine sugar, 1 ounce of
cinnamon bruised, 1 ounce of cloves whole,
3 nutmegs sliced, 2 sticks of liquourice
sliced, 4 drams of Saffron or more, 1 ounce
of caraway seeds whole. put all these things
together in an earthen pot, cover them close,
let them stand 7 or 8 days, stir them 2 or
3 times a day, put to them 2 or 3 spriggs
of balm & angelica, let it stand a day
longer, then bottle it up, first strain it through
a jelly bag, the longer it is kept the better it is./

43

To make Orange wafers

Weigh the Sevil oranges whole, then squeeze
out *the* juice & meat, taking out *the* kernells, then
take *the* outward rind with some of *the* white to it,
& boyle it tender, then shred it small & beat it
in a stone mortar, & rub it through a sieve.
then take halfe *the* weight of double refined
Sugar sifted, & beat it well together with the
rind, then mingle *the* juice &, then boyle
it all together till it is pretty stiff & clear
then let it stand till it is cold, then work it up
with fine sugar stiff enough to roll it, then
dry it in a stove or an oven not very hot.

To preserve Strawberries

Take a pound of *the* finest loaf sugar, & 2 pound of the largest scarlet Strawberries, wet the sugar in water & boyle it, but not to *the* hight

page 44 || page 45

44

of Sugar again, as is usual for other fruit. then put in *your* Strawberries, & let them boyle very slow a little while, scum them clean & glasse them up, they will keep best in a Stove./

To dry figgs

Take the fairest figgs full ripe, & boyle *them* in fair water till they be very tender, then take them out of *the* water & make little holes in *the* tops of them with a bodkin, to a pound of figgs take a pound of sugar & a quart of water, & set them over the fire till they boyle, then take them off & cut a paper fit to go into *the* pan to cover them in *the* Syrup. This do for 10 dayes every time covering them *with* a fresh paper. then take them out of the Syrop, & lay them on a clean Sieve, & put them into a Stove, turning them every day on a clean Sieve, till they be allmost drye,

45

& wash them with a clean cloath & some warm water. then put them in *the* Stove till they be very dry. then wrap up every one in a distinct paper./

Another receipt

Take the fairest & best figgs, boyle them in fair water very fast, for a good while, till they are very tender, lay them out upon a clean cloath a draining, then boyle *your* sugar (*which* must be double refined) to a candy, put in the figgs & set them in a Stove twice a day for 10 dayes, heat them scalding hot, but be sure not to boyle them, turn them in *the* liquour *when* you heat them, lay them out on plates to dry, serse a little fine sugar on them once in a day till they are drye./

page 46 || page 47

46

To dry Plumms of Sorts.

Take the Plumms & stone them, then to every pound of Plumms take 3 quarters of a pound of sugar. Take *the* sugar & make a thin syrop of it, set it over *the* fire & let it just boile, then take it off & scum it & when it is allmost cold put in *the* plumms, & let them stand till it be quite cold; then set them over *the* fire again till they are warm, then take them & let them stand till they are cold. So do 3 or 4 times, every time a little hotter than *the* other, or else they will break you must let them boyle at the last till you think them tender enough. You must not do them quite so tender as you do to pre-serve. Let them stand 4 dayes in *the* syrop, then take them out & put them on a sieve bot-toms to drain, & at night shift *them* on a clean

47

sieve. Put them in an oven *that* has baked while bread in the morning, the stone being put up as soon as it is drawn. Let them stand in that oven all night, in *the* morning bake *them* out, & stuffe them with *the* worst of *the*^{same} Plumms. Then put them on a another clean sieve, & put them in *the* oven at night, being of *the* same heat it was before. In *the* morning take *them* out, & towards night wash them in a skillet of water, as it boyle in a ladle with holes in it, & dry *them* on a clean cloath, & lay *them* in a clean sieve bot-tom, & put *them* into an oven of *the* same heat as before. Be sure, as you wash *them*, to let *the* water boile all *the* while, dipping every ladle full in 3 or 4 times. If *your* Plumms feel clammy, you must have fresh skillets of boyling water as you wash them./

page 48 || page 49

48

To make eleven Gallons of water, set them on the Fire, but before they are warm, put in *the* whites of 6 or 8 eggs well beaten. Let the water boyle near an hour, keeping it well skimm'd, then take it from *the* Fire, & to 9 gallons of *the* water, put in 18 pound of ordi-nary loaf or white sugar powder'd. Let *the* water & *the* sugar boyled leisurely near two hours keeping it all *the* well skimm'd, & then put it into a Tub & when it is almost cold, make ready two pound & an halfe of the tender tops of Balm(be careful to take none but what are very young & tender) bruise

them a little & put them into a vessell & pour *the* liquor on them. mixe 8 or 9 spoon fulls of new ale yeast with liquour, keeping it well skimm'd, then take it from *the* Fire, & to 9 gallons of *your* water, put in 18 pounds of ordinary loaf or white sugar powder'd. Let *the* water & *the* Sugar boyle leisurely near two hours, keeping it all *the* while skimm'd & then put it into a Tub & strain it & when it is almost cold, make ready two pound & an halfe of the tender tops of Balm (be carefull to take none but what are very young & tender) bruise them a little & put them into a vessell, & pour *your* liquour on them. mixe 8 or 9 spoonfulls of new ale yest with *the* liquour, keeping it well

49

stirr'd every three hours, for 24 hours, then stop it close let it stand a month, & if its then very clear, bottle it off, but if not fine let it stand a little longer, put a little knob of fine loaf sugar to every bottle.

A little before midsummer is *the* best time to make it.

To make Oyster Sausages.

Take a Leg of Mutton, cut out all *the* lean of it, & mince it small; then take twice as much Beef-Suett, & mince as small as *the* Mutton. Then take a quart of large Oysters, liquour & all let them be minced with the meat: then put in a handfull of Sage shred small, & season them with pepper & salt, to your Palate. Roll them up in fine flower, & fry *them*

page 50 || page 51

50

with Sweet Butter./

They will keep a fortnight.

Some don't love Sage They may lave it out, 'tis better much with it!

A Method for managing the Guernsey Lillies.

Plant them in a border exposed to the South Sun, let the earth be light & not too rich; let them there remain three or four years. After which, in *the* month of Iune or Iuly, the offsetts

may be slipt & transplanted for farther mirease
put them not into pots, for it weakens them; *when*
extreme hard weather shall happen in *the* winter-
-time, give them a light covering of straw.
These short rules being well observ'd, there
is no doubt of successe. The flower appears
before the leaf, the latter end of August, or
the beginning of September, & continues flourishing
near six weeks time. see p. 55. & p. 57.

51

An Excellent Drink for Sore eyes.

Take Sarsaparilla 4 ounces, China 2. ounces, Roots
of Male-Fir 3 ounces, white & yellow Sanders, of
each half an ounce, shaving of Ivory & Harts horn
of each 2 ounces, let them infuse in 2 gallons of Small
beer for 12 hours, & then boyle it to six quarts; strain
it & let *the* strain'd liquor be put in a vessell containing
six Gallons. Fill the vessell with new ten-shilling beer
into which put *the* following bag. Take leaves of Eye-bright
four handfulls, leaves of Betony 3 handfulls, of
Sage 2 handfulls of Germander & Ground Pine, of
each a handfull, Seeds of Scurvy grasse & Garden
Cresses, of each 2 ounces, Sweet fennel Seed, 6
drams, 4 nutmegs & *the* parings of 3 fresh Lemons
being sliced & bruised, tye them in a little thin
bag to be put in *the* Vessell afroesaid, after it has
wrought. Let *the* clear Liquor be drawn into bottles
for *your* ordinary drink. Adde Figwort in la-
-tin Scrophularia 3 ounces./

page 52 || page 53

Coll. Strangwaies's drops.

Take of Balsam of Peru one ounce, the best
storax 2 ounces, Benjamin impregnated with
sweet Almonds 3 ounces, Aloes socotrin, Myrrhe
elect, purest frankincense, Roots of Angelica,
flowers of St. John's wort of each of these halfe an
ounce, Spirit of Wine half a pint; beat *the* druggs
above mention'd together & put *them* into a bottle well
stopped, & set in *the* Sun all *the* Dog-dayes, then strain it
through a^{fine} cloath & put it into small bottles
for *your* use. They must be close stopped.

The Vertues.

There is no cut with iron, or a scald, if not mortal,
but it will heale it in 8 dayes times, by applying
it *with* a feather, cotton or by injection; after a wound
is dress'd *with* this, there will come no matter from it.
It cures *the* Colicall pains of *the* stomach, bloody-flux
or loosenesse, taking 5 or 6 drops of *this* in 3 spoon-
-fulls of broath, or a glasse of claret; it is very good
for *the* Gout, Ulcers, Cancers, Cankers, Hæmorrhoids, all
swellings, or contusions & fistulas of any age or in any place
by applying it to the afflicted place with a feather. Tis ad-

53

mirable in *the* Spotted feaver, taking 5 or 6 drops in a little
broth, it cures *the* pain of *the* teeth, applying it to *the* place
with some cotton, it cures all bites of venemous creatures
particularly mad dogs applying it to *the* place, & taking
5 or 6 drops inwardly. It is good for sore eyes, putting
it into *the* eye with a feather. You must never warm it,
& be sure stop *the* bottle very close, as soon as you have
done with it. If a wound has been dress'd *with* other me-
dicines, you must wash it *with* hot wine before you
apply this, & *with* this there is no need of tents or plais-
-ters. Tis an infallible cure for a prick'd horse drop-
-ping a drop or 2 into *the* wound when you draw *the*
nail or stub, or any other thing.

My Lady How's Receipt for *the* Stone

Take Water-wort, & a good hand-full of Elder-
-flowers new-gather'd, put *the* Water-wort and
the flowers in a large still, the still must be filled
the the herbs. Put to it one quart of Langoon wine,
& past it up close, & still it off quick, keeping a
wet cloath on *the* head of *the* still, you may draw.

page 54 || page 55

54

three pints off a stile

In a violent fit of *the* stone this water is
to be taken, & at no other time; a man or
woman may take 12 spoonfulls, & if they
vomit it up, they are to take *the* same quantity
again. To a Child of 6 or 7 years of age giue
halfe the quantity, to one older you must
give more, as you thinke convenient, and

if they vomit it must be repeated again.

Water-wort is a plant that grows
pretty high in, or near, the water, & bears
white flowers, &, when crush'd, smells like
a Carot.

The juce of Chelidonium majus put into a
hollow Tooth, will so loosen it that it will drop out,
& to cure *the* Tooth-ach. This was advised to *Queen*
Elizabeth when shee was in great pain upon *that*
account. See Strype 's Life of *Bisho* p Aylmer , at *the* End

55

Mr Beauvoir (a Guernsey Gentleman & well skilld
in *the* management of the Lillies that came from that
Island) has assured me, that the Offsets must not
be slippd off at 3 or 4 years end, as this Receipt di-
-rects, but the Roots ought still to remain undi-
-vided.

Refer this to p. 50 at the end of the Receipt
for managing the Guernsey Lillies Seep.

57.

A Receipt for a Cold.

Take 6 Spoonfulls of Honey, 6 cloves or more
of Garlick roasted by *the* fire, & bruise out the
pulpe *with*the point of a knife, & mixe it *with* honey.
2 spoonfulls of powder of Elicampane, one spoon-
-full of *the* powder of Liquorish, & one spoonfull of *the*
Powders of Annisseed & Coriander seeds. mixe these
*with*the Honey like an Electuary. The Powders must be
fine. Take *the* bignesse of a nut meg *when* you goe to bed
& when you rise.

page 56 || page 57

56

A Receipt for *the* Piles.

Take 2 ounces of *the* flower of Brimstone. Take
6 ounces of *the* finest loaf Sugar, beat & searce
it, & mixe it among *the* brimstone in an Earthen
Pan. Take about a farthing's worth of Gum-Ara-
-bick, & lay it into water all night to steep, strain
some of it into *the* brimstone & Sugar & mixe it into
a paste, straw a little of the Sugar upon a
Paper & make *them* up into Lozenges.
You may take 4 or 5 every morning

& Evening as you find you have occasion.

57

Additional directions for managing
the Guernsey Lillies. from *the Honorable* Charles
Hatton Esquier. Refer *this* to p. 50 & p. 55

When you plant them, you must not separate
the Roots of those that grow together. They must be
planted in good, light, sandy more, either in large
Potts, or small cases, & not water'd till they shoot
out Green leaves, & then but sparingly to keep *the*
earth moist. They must in Winter be put in a Green-
-house.

page 58 || page 59

Dr Cockbourn 's Remedy for *the* Gout.

Rx Polypode of Oak}
Hermodactyl} 4 Ounces
Radix Chinae}
Sarsaparilla} So Lord Griffins Receipt, & Dr Cockburne allows it *shoul* d be so
Lignum Guaiacum 6 ounces.
Beat the three first into Powder, and
slice the other, put *them* into an earthen
Vessel, & pour upon them nine pints of
water & 6 pints of good White wine boy-
-ling hot. After 24 hours strain it & bottle
it for use. Then pour on the same three
pints of wine & 6 Pints of water, hot as at
first, & after 48 hours strain it like wise
& bottle it.
Let the Patient drinke of the first Infusion
at meals, as at other times, till it be done; abstai-
-ning from all other liquours. If the distemper
be not removed by the first, let him use the

second Infusion, & every 4th day take a gentle
Purge.

During the Distemper no other drinke
is to be used, & to prevent it, 2 or 3 glasses
a day is usefull.

Mr Iames Thynne 's approved Pills for *the* stone.

Take Chio Turpentine 1. ounce, wash it in Parsley water, then add to the Turpentine made into fine Powder 2 drams of Crabs eyes, of Amber 1 dram, of Saffron half a dram, Mother of Pearl half a dram, being all fine pulverized, make it into a Mast for Pills; then keep it in a pot, & *when* you are troubled with the Stone, or sharpnesse of urine, take 3 or 5 Pills at night goeing to bed, for 4 or 5 dayes, or as long as you have occasion. You can not take *them* too often, for they both help & prevent the Stone Roll *them* well in Liquorice of Sugar *when* you take them.

page 60 || page 61

To make Surfeit Water.

Steep 1 pound of Poppies in a Gallen of the best Brandy, 2 daies & 2 nights, then strain it; putt to it 1 pound of Sugar, 1 pound of stoned Raisins, 2 ounces of scraped & sliced Liquourice, 1 ounce of Anniseed bruised, 1 ounce of Mithridate, 2 drams of Saffron shreaded, 2 penny worth of Long Pepper bruised, 1 pint of Cowslip water, 110 grains of Virginia Snakeweed root bruised. P Put all these ina narrow mouth'd glasse close stopped 3 weeks or a month, then strain it.

The Balsam of Paracelsus

or

The Lady Lonsdale 's Brown Salve.

Take Sallad oyl & Linseed oyl, of each a quarter of a Pint, Rosin half a pound, Bees wax 4 ounces, barell Pitch one ounce, good

clarified old tallow 3 ounces, melt them together over a gentle fire. keep stirring it till it is all dissolved. Put in 1 ounce of liquid Storax & soon after take it off the fire, stir it till it be almost cold, it will keep good 50 years.

The vertues.

It must in all cases be applied hot; It cures all Aches, bruises, Stitches, pains or grievances in any one part of the Body, thô of nêre so long continuance. It must be chaft in hot, by a good fire with a warm hand going to bed, it must ot be used, in a morning; it cures at 4 or 5 times using, some-times at once. It cures the Rickets in Children, anointing *the* weaker parts hot. It cures the Tympany, Gout & swell'd leggs occasion'd by a Dropsy. It cures the head-ach anointing the Temples & forehead hot, goeing to

page 62 || page 63

bed. It cures all Ulcers & sores or wounds, by any instrument *whatever*, first cleaning the wound with a little urine or white wane ^ wine, then pour it on hot, laying on a little Lint, so tye it up. It cures all pains in the Ioints, arteries & sinews, if it be anointed 14 nights with a warm hand. It banishes all unnaturall wind out of the belly, if applied with a warm hand.

To make Horse-dung Water.

Put 2 Gallons of White wine, or else *the* Lees, into a pot that will hold 4 or 5 dozen of Green wallnuts. cut in slices 30 stone-horse dung balls new dung'd & well broken; half a pound of Caraway, Anise & Fen-nel seeds all together; of Cloves, Mace, Nutmeg & cinamon, balm, hyssop, Holy thistle, pellitory, Parsley, mugwort, agrimony, betony, Liverwort,

Hartstongue, Pimpernell, Scabious, Carduus, Plantane, Dendelyon, Southernwood, Centary, Juniper berries, balsam tree; of every one of these a handfull grossly cut. Putt all ? into an Earthen pot, cover it with a paper & bladder & a Stone on *the* top of it. Set it all night over head in a horse dunghill. Next morning distill one halfe in an Alembek, the other halfe in a cold still. Let it drop on loaf Sugar. That in *the* still may be

given to people of weak constitutions, the other to strong bodies.

The Use

The use of this is extraordinary good in Feavers, Agues, griping Surfeits, & all diseases proceeding from cold, taken in time. A quarter of a Pint for a man with as much Venice Treacle as a beane. To a woman half a quarter of a Pint. To a child of 12 years old 3 spoonfulls & a little mithridate. Let the Patient goe to bed & sweat moderately.

page 64 || page 65

Sir Edward Hannes's Bill for me

Rx Conservam cochleariæ hortensis℥iii. Absynthii Romani
℥iss. Chalybem ^preparatum ℥i. Cremam Tartariʒi. Syrupum
e Corallioqs quantum satis fiat Electuarium . Cape quantitatem
nucis moschatæ ter quotidie horis medicis, cum
guttis 50 sequente mixturæ in Syrupo de Chalybe
es cochlear 1. Rx Tincturam M. M. ʒii
Elixir Proprietatisʒi. Salem volatilem oleosum℈ii. MS.

In English. The Electuary

Rx. conserve of Garden Scurvy grasse 3 ounces,
conserve of Roman wormwood one ounce & halfe,
of Steel prepared one ounce, of Cream of Tartar
one drachme. Make all into an Electuary
with Syrop of Corall.

My Lord Griffin's Receipt for the
Goute. compare it with Dr Cockbourne's.

Take the roots of Polypode of the oak, Hermo-
dactyls, China root, Sarsaparilla, of each 4
ounces. Guaiacum 6 ounces; and *when* they are
bruised & sliced, infuse them for 24 hours in
nine pints of water & 3 pints of White wine
in a Dyet pot *which* is cover'd very close. After
they have thus stood 24 hours, on a moderate
fire, ~~then~~ let them boyle gently to *the* consum-
-ption of a 4th part, then strain off the clear
liquour to be kept for use. The same ingre-
-dients will serve again to make 2 more
decoctions, putting on them each time 6
Pints of water & 2 of White wine, boyling

& straining off the liquour as before.
Drinke for 3 daies as much of this as reasonably you can. The more you drinke, so as

page 66 || page 67

not to be offended at it, the sooner *the* cure will be perfected. While you drinke of it abstain from broths, Sawces, Sallads, fruit, fish, milk, or any thing made of it. Eat of any sort of well roasted flesh that is of easy digestion, & not salted.

On every 4th day take a Gentle Purge, & while you are drinking this decoction forbear other liquours. If this method be exactly pursued, there is no Goute, Rheumatisme, Sciatica, Scurvy or defluxion, but in great probability will be cured by it.

The pain of the Goute will in few hours be abated if you drinke plenty fully of *the* Decoction; but though the cause of *the* Distemper be by this method taken away, it can not in reason be expected that the weaknesse of *the* part affected should suddenly be cured, but that also in a short time will be releived.

If you find this method agrees with you, the longer you pursue it the more perfectly you will be relieved & lesse subject to return. This medecine is a great purifier of the blood & does not purge but work by urine.

This Receipt was brought by my Lord Griffin out of France as the most approved Remedy against the Goute.

page 68 || page 69

To make Skevichi.

Take a quart of White Wine Vinegar, a small quantity of coriander seeds bruised, 3 Cloves of Garlick Sliced, 4 penny-worth of Saffron & as much Schevichi powder as will lye upon a shilling. Infuse these upon a slow fire not to boyle, then run it through a sieve.

To make Davenport Hens

Take 4 of the largest young fowles, let them hang one night, then take off the Liver, the heart & the Gizzard the tenderest part, and

shread it very small. 1 handfull & halfe of young Clary, 4 Anchovies, an ounce & the yolkes of 8 eggs boyled. Shred all as small as if they were pounded, & mixe them together season it with Cloves, Mace, Cinamon & pepper to *your* taste; stuffe the fowles with it & sow

the vents up very close that no water may get in; they must be boyled in salt & water till they are almost fit to eat, then take *them* up & drain them, & put them into a stew-pan of butter, & let them brown, and when they are enough take them up & put them into a dish of melted butter with a spoonfull of catchup, & so send them to Table.

To Preserve Green Figgs.

Scald your figgs until they will peel then take them up & put them into cold water, then scrape their upper Skin from them & put them into other cold water, then cover them close, & Set them on a gentle fire till they are green. Then weigh your

page 70 || page 71

figgs, & to every pound of figgs take a pound of sugar & a Pint of water. Boyle *your* , Sugar & water together & skim *them* , then put in *your* figgs & give them a walm or two. Then set them by till the next day. So do 4 or 5 times. Then boyle them up & adde a pound of sugar with 4 Lemons. There *should* be 3 pints of water & 3 pound of double refined sugar to two pound of figgs, & a hole made in the figgs with a Skewer.

To make wine of the Flowers of Elder.

Take 6 Gallons of water, 10 pound of white sugar, 6 pound of Raisins of the Sun stoned, boyle these together an hour. Then take the flowers of Elder when they are ready to fall off, & rub them off gently from their stalkes

to the quantity of a quarter of a Peck. Put them in when the liquour is almost cold. A day after put in 6 spoonfulls of syrop of Lemons & 9 of good yeast. And 2 dayes after put it into a vessell, it must be full of it. At 6 months end, or sooner, if fine, it may be bottled.

Dr Lowes's Cordiall Tincture.

Take of Senna leaves, Elicampain root dried, & sliced liquorice, Anniseeds, Coriander seeds & Guiacum, of each 2 ounces, raisins of the sun stoned 1 Pound. Steep these ingredients in 3 quarts of the best Aqua Vitæ, infuse it in a glasse a fortnight, or till it is of a red Tincture, then strain it & keep it for *your* use. Take 4 or 5 spoonfulls in any fit of *the* Cholick or stone in *the* kidneys, any surfeit or indigestion, re

page 72 || page 73

-peating it every 5 or 6 hours if occasion be.

To make Orange Custards.

Take the yolkes & whites of 13 eggs, beat them well together & put to them a pint of cream mixt with eggs. Then take the juice of ten good Seville oranges, make it sweet as syrop, & set it over the fire & make it boyle. Then strain it & let it stand still tis almost cold. Then strain the eggs & cream into *the* juice, stirring it well together. So putt it over a very quick fire, still stirring it, or milling it like Chocolate, till it is as thick as Cream. Then put it in *your* glasses. You must sweeten the eggs & cream before you put it to the Syrop.

For the Rickets

Take 6 spoonfulls of Hyssop water, 6 of Harts-tongue water, 6 of Syrop of Gilly flower, & as much of the Confection of Alkermis as the quantity of a Hasell nut. Mixe all well together, then adde

as much spirit of Vitriol as will give
it a pleasant Sharpnesse.
Give a good Spoonfull every morning
fasting, for 3 mornings following, &
fast an hour after; then leave 3 daies
& take it as before, so repeat it as often
as you see fit.

page 74 || page 75

To Preserve the Golden or Barefoot
Pippins.

Take 2 pound of Barefoot Pippins, pare
them & quarter them, but not core them.
Put them in a Pint & halfe of water set *them*
on the fire & boyle them apace till the
Apples looke clear & begin to breake. Then
take it off & strain it through a hair Sieve,
& set the juice by for Jelly. Then take a
pound & halfe of Barefoot Pippins, &
cut them through the middle as you do
oranges. Core them & pare them & weigh
them again. Take the full weight of ---
double refined Sugar beaten in small
lumps, put the sugar in a Silver bason *with*
3 or 4 spoonfulls of water. Set it on *the* fire
& let it boyle apace till the sugar is all

melted. Then take it off & scum it very
clean. Have the Pippins ready pared &
put them in as fast as you can. You may
not put in the Pippins till the Syrop is pretty
cool. Then set them on the fire again, &
let them boyle as fast as they can all
over. Then you must have some orange
or Lemmon Peel boyled tender in water
& cut as fine as possible & strow it in.
Let them have one boyle together. Then
take *your* Jelly & put in 6 spoonfulls of
Rhenish wine & about a quarter of pound
of sugar more. Set it on the fire to keep
just warm, & when the Pippins begin to
looke clear, then put in the Jelly & let it boyl
all together. When they are near enough

page 76 || page 77

take the juice of Lemmons & warm it &
put to them & let them stand on the

fire a little after the juice is in then
put them into your glasses. They will
look exceeding clear

To fry clary & Eggs.

Take some leaves of clary, pare off *the*
thick part of the stalk on the backs of *them*,
& then wash the leaves clean in fair
water. Then wipe them gently with a clean
cloth, & let them dry (*which will be in an hour or two*) till you use them.

Take the yolks of 5 eggs & one white,
beat them well together, with a spoonfull
or two of cream & a small quantity of
salt. Then dip the leaves of the clary, on
both sides, in the beaten eggs, then put

them into the frying pan, & turn them
once. They are soon fried a little but-
-ter must be put into the frying pan./

To make the Red Cordiall.

Take one Gallon of the best Brandy, beat
one Ounce of Cochineale, putting into it
two spoonfulls of Caraway seeds, one stick
of Liquourice, the quantity of a Penny worth
siced, halfe an ounce of Cardamum seed,
Jamaica Pepper, 5 or 6. Corns, nine figgs
26 new Raisins stoned, one Race of Ginger
Let this stand 3 weeks, then put into it
one pound of Lisben sugar; let it stand
one week longer, stirring it every day after
the ingredients are in it; then strain it off,
& stop it close. Tis an excellent Cordiall for
the Wind.

page 78 || page 79

Drops good to carry when travelling.

Spirit of Hart's horn 2 ounces Elixir
Proprietatis 1. ounce, mixed together in
a Vial. The Dose is from 30 drops to 40,
in White wine, or Wine & Water. Re-
-commended by Dr Inglis.

To make the Bistifera, given me
by Coll. Grahme

Take 2 ounces of senna, 1. ounce of
Guaiacum rasp'd, 1. ounce of Anniseeds
bruised, 1. ounce of Caraway seeds bruised,
1. ounce of Coriander seeds bruised. 1.
ounce of Liquorice root, half an ounce
of Rhubarb, 2. drams of scamony, 4.
ounces of Raisins.

Put all these in a large bottle or Jugg,
Pour upon them 2 bottles of the best brandy
stop the bottle very well, & tie it over with a

79

leather, as close as possible. Let it stand
eight days (if in Summer) in the hot
sun, in winter, in the chimney, where
there is a constant fire. Shake the bottle
very often, that it may infuse the better.

The 9th day strain it through a cloth,
or sieve, put it into bottles well stopp'd.
Take 2. 3. or 4 spoonfulls as you finde
occassion, at night, or at other times, as
you please.

When you finde the Gout begin to
attack you, take 3. spoonfulls in the
morning, 3. before dinner, & 3. at night
two days together; at other times, as you
shall think fit.

It is good *against* the stone, or gravell, 2.
or 3. spoonfulls twice a day, more or less

page 80 || page 81

as you find convenient.

Against Hypochondria, or Melan-
-choly, 3. or 4. Spoonfulls twice or
thrice a day.

Shortness of breath, indigestion,
head ach, vomiting, phlegm, take
a little at a time often.

It is a Preservative *against* the Plague,
Rickets in children. In a feaver
take 3 spoonfulls, an hour before
the fit comes, & 2. six hours after.
Exceeding good for child-bearing
Women.

at Carwent in Monmouth shire is a 4 miles of of chep
-stow is ^{was} a Roman pavement very lately, such a one as
is at Witchester in Gloucestershire they dig [^] up there Roman
coins in great abundanee.

The River Wye *that* divides Monmouthshire &
Gloucestershire flows at Chepstow bridge 21
fathom.

There are 4 G great Passages over the
river severn between Bristoll & Gloucester.

Aust Passage, about 2 miles over 12^d for a man
& horse. Purton Passage, 6 miles off of Aust
somewhat dangerous by reason of *the* quick sands.

Newnam passage a small distance from Puslon
& Fromalo 2 miles off of Newnam, these two
last Passages are very short.

page 82 || page 83

Ore among *the* Saxons was *the* comm only *the* value of
20 pence, & so 12 ores were 20 shillings, but some-
times *the* value of it was but 16 pence, but in Ox-
fordshire especially & Gloucestershire 20 goe to
an ore. Selden of Tithes Cap. 8. p. 203. Edit.
anno 1618.

Receipts

From Mrs Bamfyld's book.

To make Syrop of Rue.

Take a handfull of Balm, the like
of nip Royal, of Angelica, wood-Betony.
Half a handfull of Red Sage, & as much
of Pimpernel, & with quantity of Rosemary
flowers you please; . one handfull of quince
blossoms, the like of Cowslips, & Bur-
-rage flowers, and as much of *the* tops
of Rue as of all these.

Bruise all together in a Mortar, &
so put them into *the* best whitewine Vine-
-gar you can get. Keep them close coverd
5. or 6. dayes, then boyl them *with* the best
Brasil sugar, two pounds to a Pinte, till
they come to a Syrop.

It is good as infection, & for driving

page 84 || page 85

out of the Small Pox & measles. It is good

against a feaver, & preserves the lungs,
and is a good remedy against a surfet,
taking 2 spoonfulls for a man,
& one for a Childe. -

To make Conserve of Woodsorell,
for any feaverish disorder.

Take 1. pound of Wood-sorel, &
3. pounds of the best loaf sugar,
beat them in a mortar, till they come
to a pulp, then add an ounce of Dia-
-scordium, & as much Mithridate,
half an ounce of Venice Treacle, & 1.
dram of Safron, Pound all these to-
-gether till they are well mixed.
Give to a grown Person as much of *this*
conserve as a Wallnut, to a Young or

weak body as much as a large Nut-
-meg, 3. nights Successively, going to
bed, & drink a Tea dish of Small Cor-
-dial water after it. You must lye
a little warmer than usual.

A Receipt to make Ink.

2. Quarts of prick'd wine.
8. Ounces of Galls.
4. Ounces of Copperas.
2. Ounces of Gum Arabick.
You must bruise the Galls coarsely, & put
them in, let them infuse near the fire
24 hours, strain it & put it in to *your* bottle
Then put in *your* Copperas & gum powderd
by drying it before the fire on a plate, and
then pounding it in a mortar.
See afterwards, in *this* book, another Receipt to
make Ink.

page 86 || page 87

A Receipt to Stop a Purgeing.
Sent by Mrs Bampffield .

Take 2 handfulls of Cinque foil
& boyle it in 2 quarts of milk till a pinte

is consumed, drink about three quart-
-ers of a pinte morning & evening,
for a week together.

The Lady Moor's drops.

Five of them being taken in one spoonfull
of Ale, or Table beer, nine days together, in
the morning fasting, & at 4. of *the* Clock in *the*
afternoonm cures consumptions, coughs, cho-
-licks, Vapours, Ptisick, & shortness of breath,
or any inward weakness. Women with child may
also take it safely. The bottle is two shillings
& in it is enough to take three times nine days,
resting 2 or 3 days, or a week between, &
for a child 3. drops. These are the first that

were published in England . Sold at Mr Webb's
Mercer in Gloucester . March 1730/1
Sir William Morgan was lately restored by
these drops, & Coll. Read not long before,
& therefore they are sometimes calld Coll
Read's drops.

A Receipt to Jug a Hare.

Take a Hare & cut it in quarters, or
pieces as big as you think fit. (the Hare
must not be wash'd, for that will spoil it).
Then season it with a little Pepper & salt.
Take a quarter of a pound of good mid-
-ling rib bacon, free from rust, two mid-
-ling onions, & a little Parsley. Shred

page 88 || page 89

small & mix all these ^ well together, & rub
them all over the Hare. Then have ready
a stone Jug full big enough to hold it,
& not crowded. Put on the bottom of it
a quarter of a pound of butter, mix'd with
a little flower to thicken it. Then put
your Hare & all these ingredients in together
into the Jug. Then stop the mouth of *your*
Jug very close with a clean cloth, so that no
air nor water gets in. Then put the Jug
into a pot or kettle of Boyling water
& let it boyl three hours, or better. Don't

open *your* Jug till you take it up. Then have half a Pinte of claret with one Anchovy boyld very well in it. And when your Hare is done enough, put in *your* claret & shake it well together. If it be not thick enough, you may put it in a stew-pan, &

& make the sawce as thick as you please. Those that love spice may put in what sort they think fit. The water in the kettle must rather be above *the* meat in the Jug, & great care must be taken that no water gets into *the* Jug, for that will spoil all.

To make a Pease & Leek Soop.

Take a pinte of split Peas & put *them* in a gallon of cold water, with half a pound of lean bacon. Boyle it till it is half boyl'd away. Then take a good large handfull of Leeks, shred pretty small, one handfull of spinage shred & a little mint, & a little Parsley, & a little black pepper beaten. You must first

page 90 || page 91

stew these herbs in butter, & then pour *your* broth upon them, & boyle all together till the herbs are tender, & season it with salt according to *your* taste. When it is boyl'd enough put in half a pint of beef gravy, so dish it up.

How to boyl Eggs.

Three minutes & a half will boyl two Eggs, 4 minutes must be allow'd to 4 Eggs, because the cold of so many eggs put in together into the boyling water is found to hinder the action of the fire for half a minute. A Turkey Egg requires 5. minutes.

Drops *against* Hysterick fits & Hypocon-
-driacal distempers.

They are composed of Wood soot,
Assa fætida, & brandy; ~~by some~~ known
formerly by the name of Lady Fau-
-conbridge's or the Countess of Warwick's
drop, now lately by some call'd the
Devil's drops. Inquire of Sir Clement
Cotterel for the Receipt, who has
lately found great benefit by them.
He used to take two Tea : Spoonfulls
in a glass of Whitewine, t at a time.
Mr Bale (the Apothecary in St James's
Street) sells it by the name of Tincture Spe-
-cifica, & the dose is, one Tea Spoonfull
in a dish of Tea, as often as occasion requires,
Dr Broxholm composition of it is as follows

page 92 || page 93

Rx. Assa fætíd.
Fulig, Lign. a ℥
Sp. Vin. U. 11 diger. & filtr. fiat
Tinctura Dos. cochl. min./

To make Tea of Camomile flowers

Sir R. Worsley's way to take a
good chocolate dish before dinner.
Three dozen of Camomile flowers
will make two dishes. They are to
be bought in Convent garden Market .
Enough may be bought for six pence
that will serve three weeks.
Hyssop & Penny Royal Water, double
distill'd, good for a Cold incorporated to-
-gether, & taken going to bed./

For a Sciatica, or Rheumatick
pains.

An ounce of Guaiacum infused in a
quart of double distill'd old Rum,
letting it stand two or three daies
in a warm heat. Take a spoonfull
every night, or every other night as

there may be occasion. This is
advised by Mr Bale the Apothecary.

The Duke of Norfolk's Receipt
to make Punch.

Take the Pills of six lemons & eight-
-een oranges, infuse them eight hours
in four quarts of brandy close stopp'd.

page 94 || page 95

Boyl six quarts of water with two pound
& a half of treble refined sugar for
half an hour, clarify it with the whites
of six eggs. When cold, add the juice
of thirty oranges & six lemons, & a
gallon of Brandy. Mix them well
together, & strain them through a
sieve, then put it in a vessell close
stopp'd, bottle it in six weeks.
You may make a large quantity
at a time, for it will keep a year.
If you like it sharper you may
put in more juice of oranges.

Lady Bolinbrook's Receipt to make
a Summer cream cheese.

Take a quart of new milk, scald it &
then put a quart of cream & a spoonfull
of Runnet to it, whilst it is hot. Then
let it stand a quarter of an hour before
you break it. Then take it & put it into
a fat made with straw, & let it stand 3
hours before you burn it. Turn it twice
every day, & when it begins to be hard
turn it out of the fat into a Plate, and
ripen it in Nettles.
You must strew over it a handfull
of bay salt, on each side, & take it off the
fire before you put the Runnet
to it

page 96 || page 97

A Receipt to make Cream Pan-
-cakes, recommended by the Lady
Katharine Wyndham .

Break eight eggs into a clean
pan, & beat them very well. Then put
to them one quart of cream, & eight
spoonfuls of flower, & a little salt,
& mix them very well together. Then
strain the batter through a hair sieve
into another pan. Melt one pound of
butter, & put it to *your* batter, & mix
all well together.
Then make *your* frying pan very
clean & smooth, & hot. Then put in a
little of the batter & fry it over a gentle fire.

A Copy of Dr Mead's Prescription to
a Patient who had been bit by a
mad dog. Dr Mead had this Receipt from
Sir William Lemmon See a few
leaves after.

Let him lose ten ounces of blood from
the arm.
Then take of grey ground Liver wort
(*Lichen cinereus Sylvestris*) one dram
in powder, & of black pepper one scruple
in half a pint of Cow's milk, every
morning to four doses.
He must also go into a cold spring
every morning, for a month together,
dipping all over, & staying in about
one minute, with the head above water:
and when three times a week for a
fortnight after.

page 98 || page 99

Dr Mead took care to have the forego-
-ing Receipt registred by order of the Col-
-lege of Physicians, & it is printed in the
last edition of the London Dispensary.
Another Receipt to prevent the
ill effects of the bite of mad dogs, *which*
had been used with constant success by *Sir*

Robert Burdet

Take a handfull of water flag roots
which are a red colour. Pare them, & cut
out the black & white specks, then pound
them small, & add three grains of Dragon
blood to every handfull. Steep together
all night in a pinte of milk. Give it the
dog fasting, first bleeding him in the mouth.
This must be done immediately before any
change of the Moon, & taken for six, or
nine mornings together. If it is for a
Beast, you must give a handfull & half of

the roots, & six grains of Dragons blood,
if for a man, a drachm of Dragons
blood, & eight ounce of the roots,
after being blooded.

Dr Cockburn pretends to an in fal-
-lible remedy for the bite of a mad
Dog, by takeing a quantity of Star,
or Spur Plantane, *which* he says, he
learn'd from Dr Bateman .

page 100 || page 101

To make Surfeit Water.

To a gallon of Brandy put two
Pecks of Poppies, Cinamon, ginger
cloves & Nutmegs, of each a quarter
of an ounce, an ounce of Anise seeds
& Cardamum, a pound of figs, a pound
of raisins stoned, a good handfull of
Angelica, 2. or 3. of Dragons. Put
these ingredients into *your* brandy, &
let it stand a fortnight, then strain
it off. You must stir it every day. -

Dr Friend's Prescription or an Ague

2. Ounces of Jesuites bark. 1. ounce of
Snake root. 1. dram of Salt of Worm-
-wood. Put these into a quart of

White wine, & drink it in three daies

4 or 5. small glasses each day, shaking *your* bottle well before each glass. Rest three daies. Then put half the quantity of drugs into the whole quantity of wine, & drink it in three daies as before. A vomit or two previously.

Nettle water for the Cholick.

Take stinging nettles, when they are in seed, stalks and all, & cull them so as to lye in the pot of an Alem-bick. Fill the pot with them, and then pour in small beer, so as to fill the pot, & let it stand twelve ~~of~~^{or} four

page 102 || page 103

-teen hours. Then distill it into bottles, & take 5. or six spoonfulls of it, when you find *your* self beginning to be uneasy, and so you may take it three or four times a day. You may, if you please, put a spoonfull or two of simple mint water into it. =

An approved Receipt to brew the best strong beer, after Mr Bank's way, of Middleton-Abbey Com. Dorset

The malt *should* be dried with Culm, a stone coal which comes from the North of England. To make one good hogshead of strong beer (call'd October) you must allow twelve bushels of Malt, & six pounds of hops, but take care *your* Malt be

not ground too small, nor the water too hot, when you pour it upon the malt in *your* Mash-tub, for fear of over heating the malt, which may occasion the loss of much of its spirit and virtue. We generally boyl our wort about forty minutes, and set it to cool & work as soon as you can. We allwaies tun our beer the next day after we brew, and work it as much as we can in the hogshead, by frequent

filling up. Our Brewers take
care to have the tubs &c. which

page 104 || page 105

they use in brewing, perfectly clean
& dry, before they use them.

Mrs Howard's Receipt to make
Orange wine.

Take six gallons of Spring water,
& put to them twelve pound of dry
powderd sugar, boyl them an hour,
& put in the whites of four eggs,
& scum the water very well. Then
pour all into an open tub, and when
it is allmost cold, put into it the
rindes of fifty of the best Sevil
Oranges, pared very thin. And put
in the juice of the Oranges with the rindes.

Then strain the seeds from the juice
and put in a quarter of a pinte of
good solid yeast, and stir all toge-
-ther, and let it stand two or three
daies to work, and when the head
begins to fall, put it into a vessel,
& there let it stand till it is fine,
which will be in two or three months.

page 106 || page 107

Receipt for the bite
of a Mad dog somewhat differ-
Dr Mead's -ent from the former.

Take two drams of Ash-colour'd wild
Liver wort (*Lychen cinereus silvestris*)
& one dram & half of black pepper, pow-
-der them & mixe them together. Then
divide them into three doses, & take one
every morning (fasting for 3. mornings
together) in half a pinte of warm
milk. After you have done this, wash
your self in the Sea, or (for want of that
oportunity) in a tub of cold spring water
3. or 4. times a week, for six weeks toge-

-ther, not staying in longer than a minute at a time: but take care to dip

all over at once.

Dress the wound as often as is necessary, with unguentum Egyptiacum.

A Receipt to Make Lemon
or Orange Brandy.

Take two dozen of Lemons, pare them very thin so that no White may appear. Then take three pintes of Brandy, & put the rindes in it, and so let it stand two daies. Then take three pintes of spring water, & one pound & half of double refined Sugar, put it in the water, & set it on the fire so as just to boyl, then set it

page 108 || page 109

aside till the next day. Then put the Brandy & the Rindes into it, and run it several times throug a jelly bag till the liquour is clear. Then put it into a long bottle to settle for a month, then rack it off, stop it close. If you use Orange Pill instead of Lemon, it will be Orange Brandy.

A Receipt to make Orange
Brandy Sir John Smith's way.

To a quart of Brandy you must put the pill of three Seville Oranges pared thin. Let it steep in the brancy ten daies. Then make a clear syrop

of spring water & double refined sugar: half a pound of sugar to three quarters of a pinte of spring water. Sweeten the Orange brandy with the Syrop to *your* taste. Let it stand a day or two before you bottle it. You must filtre it.

Salad Oyl warm'd & rubb'd on
the part bit by a Viper, recommended
as an infallible remedy.

A Good Receipt for a Cold.

Take Sperma Ceti & the best white sugar
of each half an ounce. Of the pulpe
of Raisins, of syrop of Mayden-hair, of
conserve of red Roses, of Oyl of Sweet

page 110 || page 111

Almonds, an ounce & half of each.
Of spirit of saffron two drams of
spirit of sulfur as much as is suffici-
-ent to give it an agreeable sharpness.
Make all these ingredients into an
Electuary.

An Oyntment for the Itch, much
commended.

Take a pinte of thick raw cream,
very fresh. Put it into a little skillet
& add to it a good handfull of fresh Rhue,
a little bruised. Keep it in a simmering
boyling way, and as the pure green oyl
rises, take it off with a spoon: thus continue
to do till it will give no more oyl. Weigh

the oyl that you have taken, & add to it
a 3^d or 4th part of stone brimstone ex-
-tremely fine powdered, & mixe all
well together with a few drops of natu-
-ral balsam & oyl of Mint, and a
little spirit of Turpentine. Use it
at least none days morning & night.
Take some red Dock roots & Eli-
-campane roots. Cut them in pieces
& boyl them in water till it is very
strong of them. Then wash & bath
your handes in it very well every night
for some time before you anoint with
the above written Oyntment.

page 112 || page 113

For a Sore Throat Mrs B.

Take a brick & heat it red hot,
then take a lump of double refined
sugar, & let it burn upon the brick.
When it smokes put a funnel over
it & take the small end into *your* mouth,
and draw the smoak down *your* throat
so long as you can endure it, and it
will infallibly cure that disorder.

For a Cough. Mrs B.

Take twenty Turnips. Slice them
thin: A Pinte of the juice of Ground-
-Ivy: half a pound of Raisins of the
sun stoned: half a pound of Lent figs
opened: a stick of Liquourice sliced
thin: and an ounce of brown sugard

Candy. Put all together into an Earth-
-en pipkin, & bake it 2. or 3. hours
in an oven. Then put it in a Press to
squeeze out the liquour. Take about
a quarter of a Pinte morning and
night; less will do for a Childe. The
syrop will be very thick, but it ~~will~~ ^{must}
be clarified with an egg. -

A Playster for a Cold,
Or Cough.

Take of Bees wax, of white Bur-
-gundy Pitch & of Rosin, of each two
Ounces: an ounce & half of coarse
Turpentine, & an ounce of Oyl of Mace.
Beat all these in an earthen pan well

page 114 || page 115

together. When you use it, spread it
on sheepskin, and grate a little nut-
-meg on it. Lay it on the stomach
& wear it till it drops off. If it be
a consumptive cough, you must
renew it two or three times. It brings
out heats on the stomach sometimes,
& the better for doing so.

Captain Green's Searcloath.

Take a Minium 8. ounces of white lead four ounces, of Castile soap five ounces. Beat the Minium & white lead very well, & searse it through a Lawn sieve. Cut the soap into thin slices, & set it on a temperate fire, & put to it a pinte of Oyl of Roses, Let the soap

melt, stirring it all the while. Then put in the Minium & White lead, by little & little, stirring it continually, & let it boyl very gently till it comes to the thick-ness of a salve. Drop it on a dish and if it comes clean off when it is cold, it is done enough, otherwise it must boyl till it does. Then add to it, of Deers ^{oxunge} grease half an ounce, a quarter of a pinte of oyl of Exeter. Put them in, & stir all well together. It must be over the fire but a very little while after the last oyls are in, & the fire must be exceeding slow. Dip in your cloaths, & smooth them with an iron

page 116 || page 117

spatula. Then tye them up to Line till they are dry. The cloaths must be dipped in whilest it is warm.

The Virtues.

It healeth all wounds, burnings & scaldings. Applied to the stomach it procures a good Appetite. Applied to the belly it helps the Cholick: to the back, it dissolves the stone in the kidneys. It is good for all aches: it takes away all heats, & strengthens the sinews. It draws thorns out of the flesh. It cures Felons, and all manner of Imposthumations, ulcers, Fistulas. And cures the Kings

Evil above all medicines. Whatso-
-ever.

A Receipt to Back shoes.

A quarter of a pound of glue. Two
or three barrels of Lamp-black. One
quart of Water. Half a pound of black
soap boyl'd all together.

The glue must lye in water 24
hours before you use it.

If you keep it long it will have an
offensive smell, which will be taken
off by new boyling it.

page 118 || page 119

A Receipt to make the Divine
Oyntment

You must first take 22. ounces of oxe
marrow, very well cleaned, so that no strings
or fragments of bones be left in it. This you
must soak, for nine daies together, in
spring water, shifting the water twice
a day. The 10th day you must take it out,
and put it, for 24 hours, in Rose water,
which you must then take out, and putting it
in a very fine linnen cloath, hang it up
that the water may drain from it. You
must afterwards get an ounce of cyprus
powder, of Benjamin, of storax, of Florence
Iris, of each an ounce Half an ounce of cina-
-mon, one dram of cloves, and the same of
nutmegs. All which must be very well beaten

and pulverized, and then incorporated *with* the
marrow *with* a silver spoon. You must after-
-wards put it into a 2. quart pot, *which* must
be well closed *with* a linnen cloath & flower
with the whites of eggs, that the steam may
not get out. You must put the said pot
into a kettle of water, which must boyle
for 3. hours together over a very moderate
fire, reckoning from the time it first begins
to boyle. You must have another kettle
with boyling water ready, to put into the
other kettle, as the water wasted, takeing

allwaies care there be water up to the neck
of the pot. After the 3. hours are expired
take it off from the fire, and strain it through
a very fine linnen cloath, & put it into a
small Pot.

page 120 || page 121

To make a Pinte of Ink.

Take two ounces & half of Galls
split them small: one ounce & half of
Hungary Copperas: one ounce of Gum
Arabick. Put all into a Pinte of Rain
water, in a bottle, & shake it every
day for a week, till it is dissolved, then
put in a glass of Red wine.
See before, in this book, another
Receipt to make Ink.

Lady Moors drops for a Cough.

Take four ounces of the finest flower
of sulphur, to a pinte of the best oyl of
Turpentine, digest it twenty daies in a hot
horse dunghill, pour it off, and keep it close
stoppd for use.
Nota Bene It is a most so-

-vereign remedy for a cold. To make use
of it you must take seven drops in some
white wine whey at going to bed. A strong
constitution may take wine. It is advise-
-able not to take it upon a full stomach.
This Receipt was given me by Wat-
-kin Williams Esquier March. 19. 1735/6.
who had it from Lord Nowel Somerset .
The Drops ready prepared are sold
by Mr Chace an Apothecary near
Golden square .

page 122 || page 123

To make a Lemon Jelly.

From my Niece A Mallet
Take 4. fine Lemons. Pare the rinde
very thin into a pinte and half of spring

water. Let it lye 3. or 4. hours, & then put to it the whites of 5. eggs very well beaten; and three quarters of a pound of treble refined sugar. When the sugar is melted squeeze in the juice of the four Lemons. Then strain all through a double Muslin or Cam-brick, & set it over a very clear fire, stirring it all the while, & skim it carefully till you think it of a right thickness for Jellying. Then take about a Tea spoonfull of Turmerick, tyed up in double muslin, & put to it two or three

spoonfulls of boyling water; and when that is thoroughly wet, squeeze a little of it into *the* Jelly, to make it of a fine Lemon colour: But take care not to make it too high coloured. Try it in a Jelly glass, & just set it over the fire again but dont let it boyl. Then pour it into a china bason, & stir it now & then, till its cold, that it may not cream at top, & fill *your* glasses at *your* leisure. It will keep a week or ten daies with care. -

A Receipt for the Stone, or Gravel

Take a pound of the fairest Juniper berries. Bruise them well, & pour on them a quart & half a pinte of Rhenish wine.

page 124 || page 125

cover it close & set it over a ---- slow fire made of charcoal, to boyle gently for a quarter of a hour. Then strain off the juice, and to every pinte of the juice put a pound of double refined sugar. Set it over the fire & boyl it to a Syrop. When it is cool, to every pinte or pound of the Syrop, put an ounce & half of Compound Syrop of Marshmallows. Cork it close down & set it in the Cool. It will keep

a year. Directions

Take two spoonfulls in the morn-
-ing fasting, and two at night going
to bed. But if it lyes heavy on the
stomach take it onely at night.
April is the best month to make it

in, because then the berries come
over fresh./

A Receipt for the best Tansy.

Take about a Pint of Cream, Sim-
-mer it with a large blade of mace,
strain it through a hair sieve, toge-
-ther with half a pinte of Spinage &
as much of the juice of Tansy as
will give it a flavour to your taste.
Add to this eight eggs, with half the
Whites left out very well beaten
or whisk'd, strain'd also through a
hair sieve. Also two Naples biscuits
grated, half a nutmeg, a glass of
sack, & sugar to your taste. And note.

page 126 || page 127

that half an hour will be suffici-
-ent for its baking. Garnish it
with sevil Oranges double refined
sugar, & serve it up. If you please
you may stick it with sweet meats.

To make Custards.

Take a quart of Cream, eight
eggs (*without* the Whites) well beaten
& strain'd through a hair sieve to
the cream. The Cream must be
boyled & almost cold before you
put in the eggs. Sweeten it to your
taste with loaf sugar. Put in Orange
flower water if you like it. Fill *the* cups
& bake them in a cool oven.

Receipts.

The Herb called the Oxe-Eye, or
Horse-daisy, boyled in milk good for
soar throats. This Plant is called in
Latin Bellis Major, in English of-
-ten called the Bishop's weed.

The Powder of Mistletoe (made from
berries & leaves dried in the Oven) as
much as will cover a Shilling given to
dogs that have fits; an infallible
remedy.

Half a pint of water, & half a
Pinte of wine warm'd together, with
3 drops of oyl of Cinamon, very re-
-freshing after a journey, *when* going to bed.

Concerning the Lichen Ciner.. Tenes-
-tris, and the Star of the Earth, said
to be good *against* the bite of a mad dog.
See the Philosophical Letters of Mr Ray &
publishe'd by Mr Derham. p. 110 & p. 208
Sir Hans Sloane writes to Mr Ray - --I
send you here in closed, the Specimen of a
Plant growing on New Market heath, , & in
Surry, , known by the name of Star of the earth
in those parts. It is particularly taken notice of
on the ace. of its extraordinary & admirable virtue
in curing the bitings of Mad dogs, either in beast

or men. One of his Majesty's Huntsmen, having
prov'd it a great many times, gave the King his
way of using it, *which* way an infusion in wine
with treacle, & one or two more simply. His Ma-
-jesty was pleased to communicate it to Gres-
-ham College to the Royal Society, & no body
knowing the Plant by that name, some there
present confirming its use in that disease
in some places of England , & procuring the
herb it self, it is as little known here, as if
it had come from the Indies, I told the Socie-
-ty, I *would* send this Specimen to you, *which* I questi-
-on not, is known to you. Ask Mr Ray
send him. The following answer (p. 209)
I *received your* Letter with the Specimen, *which* seems to me
to be the Sesamoidy Salamantricum magnum
of Clusius, or Lychnis viscosa flore muscoso
of C. B. *which* I have observ'd to grow plenty fully
up New Market heath, that part in Suffolk

for on the Cambridgeshire side I have not found it. I wonder it *should* have such a virtue as you mention, but it seems it is well attested. Dr Hulse writes to me, he finds it in Grayes Farrier. - p. 250. Mr Aubry thus writes to Mr Ray . K. James 11 sent by Sir -- Garden, to the Royal Society, a Plant called Star of the Earth, with the Receipt made of it, to cure the biteing of Mad dogs. which is in Transaction p. 187.

I find, among my Papers, this Receipt for the King's Evil. Let the Patient chew the Roots of Pipentis, and it will make him spit, and bring away the malignity & cure the distemper. In Aubrey's Letter to Mr Ray . ibid. p. 251

Emplastrum de Ranis cum Mercurio
Quadruplicato. A Plaster of this,
lay'd to corns will take them away./

Dr Mead 's Prescription to me, for the Gravel, October 1737. Which I believe did me much Good
Take of the Balsam of Capivi, in as much of the Yolk of an Egg as is sufficient half a Dram. Of Black Cherry water, an ounce & half. Cinamon half an ounce Syrop of Balsam two Drams.
of this Balsam of Capivi Dr Quincy (in his Dispensatory . p.149) gives the following account.

Balsamun Capivi, is the Produce of the Balsamum Americanum of Casp. Bawhine called by Piso Copahiba, and distinguished by Mr Ray , Arbor Balsamisera Brasiliensis fructu monospermo; and it grows most in Brasile This Balsam is of a thinner consistence than

The Common Turpentine; but much more fragrant and detersive. Tis extremely quick in passing off by Urine, & mightily Cleanses those Passages; for *which* reason it has obtain'd very much in all obstructions & ulcerations

of the Kidney. & The yolk of an Egg will mix it in any liquid form.

Mr Matthews , an Apothecary in Norfolk Street , sells an Herb Tea, commonly called Mr Edward 's Herb Tea, because it used to relieve him immediately when afflicted with the Gravel. It must be made strong, & sweetened with Honey, or Marsh Mallows, as the Patient may like best. It is 6^d . an ounce, *which* make at twice.

This Remedy is earnestly recommended to me by my niece Anne Malet . *December* 9.1737.

page 136 || page 137

Ingredients for Diuretrick Tea.

[viz those recommended by Mr Matthews the Apothecary in Northfolk Street , from which ~~from~~ Mr Edwards constantly had Releif.]

Marsh Mallow leaves. Mercury, Meadow Saxi-frage. Pellitory of the Wall. Of each equal Quantities.

Mr King (son to the late Lord Chane. King) gave me a Note of these Ingredients, and told me he had it from the forementioned Mr Edwards himself.

To make Cheese Cakes.

Take ³ quarts a quart of New milk, fit for cheese, hang it up in a cloth, & let it drop very clean from the whey. Then beat the curd ~~have~~^{half} an hour in a Marble Mortar or bowle, with half a pound of butter. Then put in half a pound of Currants, well dried, half a pound of Sugar, 3 Eggs, a nutmeg grated, one spoonfull of orange flower water. Lay one spoonfull of these in each pan, having good light Puff crusts. Bake them in a quick oven. A quarter of an hour will bake them. From M^{rs} Sculthorp

 strain it off into a barrel, shakeing it
 4. or 5, times a day, for 5. or 6. days
 together then bottle it off. It will
 keep years---on the preceeding leaf.

A Good Receipt for the Gravell

Two spoon fulls of Line seed to be infused into a quart of boyling water; and when the water is cold, pour it off & make Punch with it, and old Rum. - 6. Oranges to a Quart of Rum. sweeten it with Sugar & drink it hot, 3. cups at a time From Mr Iustice Probyn.

For The Gravell.

Oatmeal put into Water for about 12 hours -take out & straind, & the Water well mixed with Honey. Observations relative to the Poison of Vipers & the bile of a Mad dog, transcribed from Mr Clayton' s account of Virginia , printed in the Miscellanea Cusiofa. Vol. 3. p. 346. &. The Poison, both of a Viper & a Mad Dog, as I conceive, kill by thickening of the blood, after the manner that Runnet congeals milk, when they make cheese. Vipers & all the Viperous brood (as Rattle Snakes & that are deadly) have, I believe their Poisonous Teeth fistulous. for so I have observed that Vipers teeth are, and the Rattle Snakes are very remarkably so, & there fore they kill so very speed.

page 142 || page 143

-ily, by injecting the Poison through those fistulous teeth, into the very masse of the blood. ~~being it sticks onely to the outside of the teeth~~ But the bite of mad dogs is oft of long continuance, before it gets into, & corrupts the masse of the Blood, being it sticks only to the outsides of the teeth; & therefore when they bite through any thickness of cloaths, it rarely prives mortal, the cloaths wipeing the poison off before it comes to the flesh.

But the poisons of Vipers seem to be like the injecting of liquours into the veins of creatures - ibid. p. 348. & The Poison of Vipers & Mad Dogs, I suppose, kill

by thickening of the blood, as many malignant feavers also do. In all which Cases, I look on Volatile Salts to be the properest Physick, as keeping the Blood from congealing

I had a Singular instance hereof in one Gentleman, who was bit by a Dog 3 minutes before the Dog dyed mad. He bit him in several places of his hand, as he was giving him a Remedy. The Monday following the Gentleman was very ill, & my assistance was desired. When I came, the Gentleman *could* talk; but every 2 or 3 minutes he had violent fits, & *would* tell us *when* they were over, that his brains work'd like birme in an Ale-fat, & seem'd to froth up at every fit. I could not get any Volatile salt of Vipers, so I took the Volatile Salt of Amber, & orderd him Ten grains in Treacle water, every half hour. He told me every Dose seem'd

page 144 || page 145

to clear his brain, & cool it as perfectly, as if a bason of cold water was poured on his head, but it returnd by degrees again. Having then a Volatile Salt by me, that Vomits very well, I gave him a Dose thereof. It work'd very well, and he was very much the better after it. I then orderd him to continue the Volatile Salt of Amber, once every four hours, & at each 2. hours end, that is betwixt, Spec. Pleres Archonticon, & Rue powderd gr. 15, whereby he was so well recovered, that with in 2. days, he *would* needs go home, to look after his affairs, & after wards he found himself so well, that he forgot to return & perfect the Course; and I heard no more of him for half a year, *when* I was fetched one morning to him in great haste. He had been abroad, play'd the Good Fellow, & in his

return home, having rode a great days journey, being weary, & I suppose, finding

himself indisposed, he stay'd all night in our Town, it being fortunately in his way. In the morning, when he *should* have got up, he *could* not stand, whereupon the Apothecary was sent for, & a Surgeon to bleed him, *which* was accordingly done; but he grew worse; for in this case, I look upon Bleeding to be very prejudicial, as well as in most malignant feavers, for thereby the Spirits are diminished, & the blood congealed the Sooner. When they had done all they could, & the Symptoms still increased, they at length sent for me. I never saw man, or creature in that Agony all my life,

page 146 || page 147

that I found him in; senseless & mad, *when* at best, but every minute the fiercest Shiverings ran through him: his eyes *would* first roll, & then set, as if ready to start out of his head; but above all, the swelling & lucitation at his breast, was as if he *would* burst, *which* went off with a prodigious Sigh: all this I judge the effect of the heart labouring to discharge it self of the stagnating blood, & the nervous convulsions as consequences thereof. And I am the more confirmed in this, from *what* I saw in a woman that was bit also by a Mad dog in the leg, & fell ill the very day that she had payd the Surgeon for her Cure; and notwithstanding all that *could* be done, growing worse, they sent for me. I went, & found her with that is called a Hydrophobia. She *would*

look earnestly after drink, or water, & seem to desire it, but as soon as she began to drink, away it went, be it what it would, with the greatest violence she *could* possibly fling it. ? I gave her the Vomit hereafter, & also before mentioned, but she got but little of it down, & I had no more with me. Nevertheless, it so brought her to her self, that she *could* answer questions; and I askd her, whether she was afraid of *the* drink & Water, *when* She flung the cups in *that* Violent manner from her? She said, No.,

but *when* she offer'd to drink, her breast &
heart *would* not let her. I askd, whether through
any aversion or fear? no, she was very thirsty,

page 148 || page 149

but when she offerd to drink, it struck
to her heart, & stopped her breath. that
is, as I apprehend, the cold drink passing
down the throat, ^ struck a chillness in the blood,
& made it readier to stagnate. Besides,
the very act of drinking, hindering the
free breathing, conduced also much there-
-to. And therefore the heart was so sud-
-denly oppressed, that she *could* not forbear
flinging away whatever she had in
her hand. She complaind also of a great
rigor, & stiffness, or straightness of the
muscles of her breast. So that possibly
the spirituous liquour that flows in the
Genus Nervosum, may be congealed, as
well as the blood; or the same effects may
be supposed notwithstanding, to be the result

of the condensed blood clogging both the
heart & lungs, so that the breast may seem
to be straitned therewith. The same I judge
to be the cause of all the violent lucta-
-tions in this Gentleman, whose fingers
I lookd on, & found the places, where he
had formerly been bit, turnd blackish
& much inflamed, *which* confirm'd me in
my sentiment, that it was a relapsse
of his former distemper, that is, of the
bite of the Mad Dog - ?? at last
my methods prevaild, & I recoverd him
- I vomited him every other day with
this vomit, for 3 times, & made him, in
the interim, take volatile Salt of Amber,
& the foresaid powders, & to wash his hands
& sores in a strong salt brine, to drink

page 150 || page 151

Posset drink with Sage & Rue; & by this
Course, & the blessing of God, his life
was saved, & he perfectly cured, for it is
now four years since, & he had had no
Relapse. I have cured Several others by *that*
Same method.

Lady Hartford 's Receipt for order-
-ing the Jesuites Bark *against* Agues

Take a pound of the Jesuites Bark,
well pick'd, & put it into two quarts
of old French brandy, and boyl it
till the Brandy is as dark as Coffee.
Then strain off the Brandy, & put
the Bark to two quarts of Langoon
Whitewine, & boyl it till it is as
black as the Brandy. then strain
it off, & boyl the Wine & Brandy
till they come to the consistence
of a stiff Jelly, & about the weight
of an Ounce./

page 152 || page 153

To make Mutton Collops.

Take the inside of a Loin of Mut-
-ton, cut it into thin Collops, fry
them in butter. When done, pour the
frying away, and put to them some
Gravy, and some Chopp'd Oysters.
Just heat it hot, and toss it up with
a piece of butter. Put in some salt
to make it savory, a few drops of
the juice of Lemon is not amisse,
but will do without.

To make Silabubs.

A Pinte of white wine, a quarter of a
Pinte of Sack, 3 quarters of a pound
of Sugar. Grate into this the out-rinde
of 3 Lemons, and strain the juice into it
also. Let this be done over night, & let it

stand cover'd till next morning. Then
boyl a quart of good cream, & put
to it when it is cold, and beat it
to a thick froth, & put it into *your*
glasses. They will keep ten daies.
You must whisk it half an hour.

To cure the Gravelle, and also
Good for Rheumatick Pains.

Take a Pinte of Common Ale, set
it over the fire. when the scum ri-
-ses take it off. Then put to it a
quarter of a Pinte of the best Gene-
-ver Brandy, and a large Spoonfull
of Common Treacle. Let it stand upon
the fire till it is dissolved. Take a large
Coffee-dish full going to bed; & if you are
very bad, take as much in the morning.

page 154 || page 155

To Stew young Green Peas.

Take a quart or more of young
Peas, two or three good Cabbage
Lettice, cut in quarters. Put *your* Lett-
-tice in the bottom of *your* Stew pan,
your Peas on top, add about two ounces
of butter, a bit of lean bacon, & a
little pepper. The Bacon will make
it salt enough, if not, throw in some
salt; if Mint is liked, you may put
some on the top. Shake *your* Stew pan of-
-ten, & keep it covered close till all is
ready. When you dish it up take out
the bacon, & if you don't like the Lettice
pick that out too. Shake ^{in another} ~~it~~
bit of butter before you send them up.

You must put no water to the Pease.

page 156 || page 157

Extract from Outlines of Edinburg

When looking for lodgings, a stranger will see
Some Customs abstruse to a Southron like me
I saw "Lodgings" put up, and began to explore
A dirty Stone Staircase; and came to a door
With a name and a bell, and a scraper complete
(Like the doors which in England we have in the street.)
I rung--and was told there Lodgings next door,
So I turn'd, and went down the same staircase once more

And I search'd the next house for these lodgings of theirs
But discover'd at length that next door, meant up stairs
And on the next story I speedily came
To another street door with bell, scraper and name
And if you go up eight or nine stories more
Each has scraper, and bell, and a perfect street door
This custom at first could not fail to create a
Great marvel in me, for they all live in Strata!
One over another from bottom to top,
And beginning below with a Stratum of Shop!
And the mixture is such that we often may see an
Undoubted pure Stratum, 'twixt Strata plebeian:
You may call on a friend of some ton, and discover him
With a Shoemaker under, and a Staymaker over him!
My dwelling begins with a Perriwig Maker
I'm under a Corncutter, over a Baker;

Above the chiropodist, cookery too;
O'er that is a Laundress, o'er her is a Jew;
A painter and tailor divide the eighth flat
And a dancing academy thrives over that;
We'll leave higher Circles unnam'd: --t'other night
My Landlady enter'd my room in a fright,
And cried, half in tears, with a face full of woe,
"Your lumm's in a low, sir, your lumm's in a low."
I laugh'd in her face, for her hasty oration
To me, had convey'd very small information;
Indignant she bawl'd, when she saw that I laugh'd
"You're foolish--your lumm's in low - the man's daft!"
"The Baker! the oven!" I now comprehended,
and join'd in the cry ere the uproar was ended
The baker! the oven! oh, oh! is it so?
My chimney's on fire! my lumm's in a low!"
The new town is fine, and 'tis seldom one meets
with such long, and such spacious, and regular streets
But if you remain here in March, you will find,
They expressly are built as conductors of wind;
and while a dense Cloud along Princes Street flies
You will peep at the beauties with dust in your eyes
The gales are tremendous, and every gust,
Sends ashes to ashes, and adds dust to dust,

Curative a Preventive treatment
of Gout & Rheumatism by
father Laville
translation from the french
by Old Malet

14 Manson Place 29 April 1882
Our Method of treatment (of Gout) has
been known for nearly 40 years
a great number of persons of all nations
have successfully used it. It has thus
the sanction of time ^ experience ^ so
necessary to every work on the act of
curing disease
Our prescriptions & Medicines are subject
to the verification of an anauthority that
no person acquainted with the science can
despute it is a fact that the person most honourable
& most competent of the academy of medicine in ossian
Henry , Chief of the Chemical works of that illustrious

page 160 || page 161

association, was charged with the analysis of our preparations
Here are the conclusions to which he came in his report
The Antigout liquid of *father* Laville (Judging
from) the composition furnished for analysis, is
composed of Febrifuge, antiperiodic, diuretic,
& Purgative, = substances. It is a happy
compound to attain the object proposed
and with ...ond...e Pills these are his conclusions

Certain thoughts & Observations
Martinus a' Baumgarten in *the* first book of
his Travels cap. 13. mentions a good contrivance
which he had to secure his money from *the* Sara-
-cens. viz. by hiding it amongst swines flesh
which they abominated.
Idem C.1.c.21. de transitu Israelitam & Sub-
-missione Ægyptiorum in mari Rubre. Viden-

-tur *usque* hodie in littore, curruum equitumque vestigia & quantumvis turbentur ab aliquo, brevi iterum spatio apparent. Orosio estiam l.1. teste qui ait nontantum in littore sed etiam in profundo videri trachus curruum rotammq. Ægyptiorum.

Idem. l.2.c.1. in Ægypto vidimus Sanctum unum Saracenicum inter ~~ane~~ arenarum cumulos sedentem, ita ut ex utero matris prodijt. Mos est, ut didicimus eo tempore, Mahometiftis, ut eos qui amentes & sine ratione sunt, pro Sanctis colant & venerentur Insuper & eos, qui cum diu vitam egerint inquinatistimam, voluntariam demum pœnitentiam & paupertatem

page 2 || page 3

2

se amplectuntus, sanctitate venerandos depuntant. Eiusmodi vero genus hominum libertatem effranem habent, domos quas volunt intrandi edendi bibendi, & q majus est concumbendi: ex quo concubitu si proles secuta fuerit sancta similiter habetur. his ergo hominibus, dum vivunt, magnos exhibent honores: mortuis vero vel templa vel monumenta extruunt amplissima, eosque contingere & sepelire maxima fortune dueunt loco. Insuper sanetum illum quem ed loci vidimus, publicitus apprimere laudasi: eum esse hominem sanctum divinum ac integritate prapicum, eo quod nec faeminarum unquam esset nec puerorum: sed tantum modo ascellarum conbubitor aique mularum. & vide etiam de la Loubere dans l'hist. duroya..eto

l. c. 24. p. 414. 415.

Idem l. 2. c. 7. Guardianus do monte sion (w. unus ex monachis) solet omni anno in die palmarum cum fratribus suis ascendere asellos, ac Hierosolyman intrare, ob memoriam facti

3

ibi a' Christo Patrati, risum & lupum debens sara-cenis.

Idem ibid. In reditu Hierosolyman ad truncum arboris deflectimus, in quo Judas Mercator pessimus laqueus sibi vitam finisse creditur. statim ad lavam est ejus domi? s a' Judeis undique propter Christianorum contumelias muro septa & obducta.

Idem Baumgarten l. 2. c. 12. ad Jordanis venimus fluentia, adque locum ubi baptizatus a' Johanne traditur salvator mundi, estque

hic locus contiguus passui quem filij Israel
sicce transierunt pede: trajicientes autem
bibimus ex eo faciem, manus, caput pedes *que*
exinde & conspergentes, & in vasculo nobiscum
in patriam usque sine omni corruptions transfe-
-rentes.

Idem l. 3. c. 21. in Parasceue, i.e. die ante
Pascha, vidimus in Cretam Insulam apeclaculum
quoddam cruentum. Erant in comitata 300
fire Latini & Græci, qui veste ignotam faciem

page 4 || page 5

4. totum*que* corpus velabant, solo excepto dorso.
Iti per omnes plateas obeuntes flagris acu-
-tissimis dorsa cædebant, adep ut flagella,
vestes, tota caro, ac platearu solum, cruore
manaret. ferebant vero, quosdam inter eos
fuisse, qui id genus flagellationis in
recompensam Pastionis Christi sponte
& superstitiose subirent. majorem vero
partem fuisse, qui id ipsum, pretio ab
alijs conducti, facerent & terræ illius:
ut cum ipsi aut præ tenio aut valetudine
corpus suum acerbius tractare non præ-
-valent, alios qui id loco comm agent,
subordinent. Itaque plures videas ephebos,
amore pecuniæ corpus suum, quasi truncum
aut statuam sine sensu, sæviendo ferire
amentissime, ictus sonare, saniem profluare,
ac omnia cruore fædari. Ad hoc spectaculum

5
civitas tota effesa, adult? & pueri, mares & fæmi-
-nd per intervalla quisque lingua sua Græci
& Latini, acclamitant. Misericordia, Mi-
-sericordia.

Tis almost incredible with alterationes
time produces in *the* temperature of *the* air
in some places, in somuch *that* those countrys
which had formerly *the* reputation of being
most healthy, are now deservedly defam'd
for *the* contrary. 'tis well know *the* Rome (as
it appears from Camillus 's speech in Livq)
was formerly esteem'd for it's saluberrini colles,
vulgata est tamen nuni Romani cæli, gravitus
(inquit Christop. Besoldus de natura populonum
p. 39.) noxius aer urbem totam, colles pariter
valles infestat; quem nisicerta luce, haud
ferme sine periculo sentiat hospes. Vere atque
utiliter, quisquis ista observanda inæ D. Vir-

-ginis Marie, supre minervam scripsit.

riæ Raben. anno 1620

Thomæ Reinesij Diatriba de lingua Punicâ.

Menagius in Diog[enis] Laert[ii] vit[a] Thaletis. p. 14.
 citat locum ex Iamblichi tractatu quem ad Nico-
 -machi Geraseni Arithmeticam scripsit, qui ex-
 -tat M[anu]S[criptus] in Regis Gallici bibliothecâ
 Idem Menagius p. 16. citat locum ex Galeno
 περὶ χυμῶν [=peri chymōn] quem Græcè M[anu]S[criptum], nam Latinè solum
 editus erat, ait secum communicâsse, Iacobus
 Mentelius, Patricius, medicus Parisiensis cele-
 -berrimus.
 Idem p. 20. citat Originis Philosophi-
 -ca nondum edita, quæ cum illo communi-
 -cavit Carolus Monchalius, Archiepiscopus
 Tolosanus.
 Idem Menagius in Diog[enis] Laert[ii] vit[a] Thal[etis] p.
 21. habet quædam ex veteri scriptore Ano-
 -nymo (quem tamen esse Phlegontem Trallianu[m]
 suspicatur) in tractatu περὶ τῆς τοῦ] Νείλ[ου]
 ἀναβάσεως [=peri tēs tou Neilou anabaseōs], cujus qui est M[anu]S[criptus] in
 bibliothecâ Vene-
 -tâ, cujus tamen exemplu[m] cum illo communicavit Me-
 -ricus Bigotius

prorsus^s reprehensio, per barbam habens copiosam in pubem
 capillis coloratam non longam, sed in mento pars
 bifur f catam, aspectum simplicem & maturum,
 oculis glaucis & clarij exiscentibus, in increpatione
 tæ^{ter} ribilis, in admonitione blandus & amabilis,
 hilaris servatâ gravitate, aliequin^{quando} flevit,

sed nusquam risit, in staturâ corporis propaga-
-tus & erectus, manus & brachia visa delecta-
-bilia &c.

Anno 1296. The Clergy of the Province of Canter-
-bury refuse to give the King any money (alleging
a bull of *the* Popes for their excuse) upon *which* the
King put them all out of his protection & *ubicunque*
super equos electos à militibus vel ab alijs illis poten-
-tioribus invenirentur equitantes, eos prosternerint,
& equos eorum, si suis proprijs fuerint meliores, re-
-giâ protectione eos non protegente, abducerint

quo vellent. See Fox 's Acts & Mon. in Edw. I. p. 349.
Interim promulgata est Sententia contra Regem
& suos fautoris per D. Archiep. Cant. & suos suffraga-
-neos, unde rex furia repletus per Procuratorem
suum de Engolisma Clericum contra sententiam
praedictam ad Sedem Apostolicam appellavit &
tale edidit Statutum in Parlamento suo ante me-
-diam Quadrag. apud Clarendon. *quod* ibitequitur
contra Praelatos & Clericos.

1297. Ante Pasch. nuper nominatum & terminum
prae fixum Regiâ potestate urgente, concordatus est
Clerus cum *Domi* no Rege ut suam voluntatem facerent,
& suam protectionem haberent, concessâ ei *quin* tâ parte
omnium bonorum suorum. Revocation Constitutionis
Domi ni Papae. see this bull in Fox. ubi supra.

1300 In clusae sunt moniales per *Domi* num Papam Bonifacium quae prius erunt
vagabundæ.

Notata quædam ex Annalibus
Lincoln iensibus MS penes D. H. de Alderley
¶ Incipiunt Annales ab Orbe Condito, & bre-
-viter historiam Adami & Evae attingentes
ad Christi historiam transeunt ajunt B. Mariam
fuisse 13 annorum cum concepit, 14 cum pe-
perit Iesum. Ajunt inveniri in libris anna-
-libus apud Romam existentibus *quo* d Christus fuit
Staturæ procerae mediocris & ex spectabilis, vultum
habens venerabilem quem possent intentes dili-
-gere & formidare, capillos habens nucis avellane
præmaturæ & planos usque ad aures, ab auribus
cincinnos crispas aliquantulum fulgentiores ab
humeris ventilantes, discrimen habens in medio
capitis juxta morem Nazaraeorum, frontem plana

& Serenissiman & faciem sine rugâ & maculâ,
quam rubor moderatus venustavit, nasi & oris nulla
